Murvon's 47th Annual Garden Guide

E. J. MURVON

It is with much pleasure we present to our friends and customers our forty seventh Annual Garden Guide. Every Vegetable and Flower listed in this book will give the utmost satisfaction and is well worth a place in the garden. Only the most dependable and reliable strains are listed.

We call especial attention to the many new varieties of seeds listed, both Vegetables and Flowers. We offer them after many careful trials, firmly convinced, that they will be a pleasure and delight to both our valued customers and their friends.

Respectfully yours

THE MURVON SEED CO.

Murvon's Double Guarantee of Satisfaction

FIRST—We Positively Guarantee all seeds and bulbs sold by us both as to Vitality and Purity. We also guarantee them true to name and will replace, free of charge, any that may prove otherwise through a possible error. Even with the High Quality of Murvon's Seeds success depends largely upon soil, not too deep or shallow planting, weather conditions, etc. these are beyond our control. It is therefor agreed that in no case shall we be liable for more than the amount actually paid us, and if not accepted on these conditions, they must be returned at once.

SECOND—We Guarantee the safe arrival of your order and should anything be damaged or lost on the way we will refill when proof is furnished. Murvon's guarantee protects you at all times.

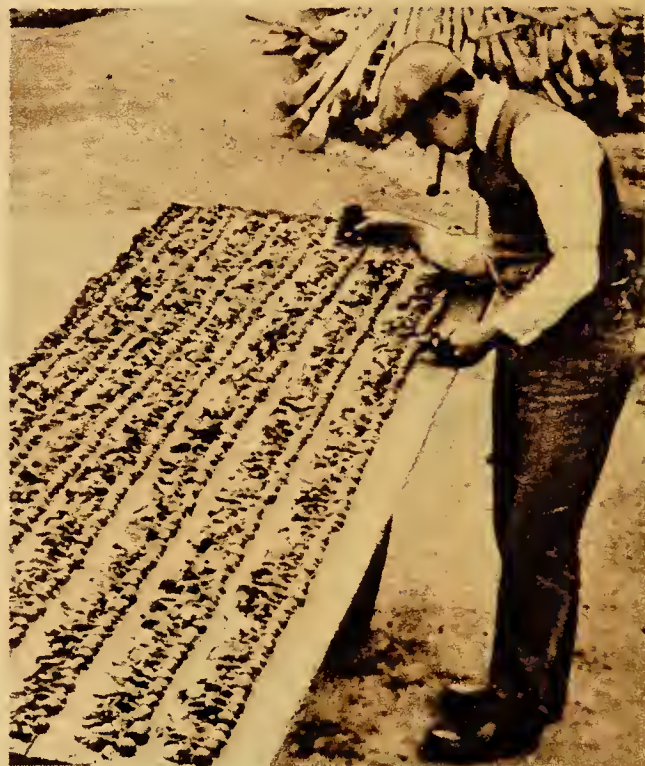

Instructions for Ordering Please use our Order Sheet when ordering and be sure to write your name and full address plainly. Generally speaking we advise our customers to use a Post Office or Express money order. If you send cash see that it is properly wrapped. Large amounts in cash or stamps should be registered.

Free Delivery We deliver Postpaid to any Post Office in the United States every article listed in this catalog. Our terms are strictly cash with order which accounts for our low prices, and you run no risk in sending money with order. This is our Policy since 1888. We can refer you to thousands of customers all over the world.

Carefully Selected Seeds Back of Murvon's dependable seeds is 47 years of experience. Careful selection of stock seed is diligently practiced by us. Only by such selections and trials have Murvon's Seeds reached such a high state of perfection. The vast number of gardeners who depend upon us yearly for their seeds testify to the ever increasing popularity of Murvon's quality, reliability, and service.

Coupons, Discounts and Free Seeds

We do not give any coupons, discounts or free seeds for the following reason. Every last cents worth of value is placed inside of all the packets of seeds that we sell. Murvon's quality is of the very highest. One trial will convince you as it has thousands of others. Results count. Send us a trial order, then compare Murvon's Seeds with the best. Remember, cheap seeds are dear at any price.

Careful Selection of Stock Seed

Murvon's Velvet Green Lawn Grass

Recognized the country over as the very finest quality. Sow in spring or fall. 1 lb. for 300 square feet. Contains only the highest grade of grasses suitable for the purpose of making a beautiful, durable, lasting lawn. Our Lawn Grass Seed germinates quickly, roots deeply. It contains no annual grasses for making a quick show, to the detriment of the permanent lawn, but has only those which are lasting and hardy. When a lawn is once established from our seed, it lasts for years. ½ lb., 28 cts; 1 lb. 50 cts; 3 lbs. \$1.40; 5 lbs. \$2.25, postpaid.

Murvon's Shady Nook

In shaded places and especially under trees, this mixture produces a beautiful green lawn, because it is composed of those varieties growing well in partial or full shade, making a rapid and lasting growth. Use one lb. for every 300 sq. ft.

Price, ½ lb. 30c; 1 lb. 55c; 2 lbs., \$1.00; 5 lbs., \$2.35; 10 lbs., \$4.50; 25 lbs., \$10.50, postpaid.

Murvon's New And Rare Annual Flowers

Many new novelties will be found listed in the following pages. Everyone is an outstanding variety in its class. A large number of them have received gold medals and awards of merit. We offer them to our customers with the knowledge that they will give complete satisfaction.

New Petunia Flaming Velvet

Gold Medal Award All America

A magnificent new Petunia of a gorgeous flaming velvet color. So outstanding was this magnificent flower that it received the only gold medal awarded this year at the All American Trials. This remarkable type we have checked against many others, and for profuseness of bloom, brilliancy and richness of color, immense size of flowers, and length of blooming period, outclasses and surpasses every other type. Order this seed early as it is new and very scarce. No. 878. Pkt. 20c; 2 Pkts. 35c.

New Dahlia

Mignon Dwarf

Delightful very dwarf Dahlia Suitable for beds and borders. Seed planted in the spring will produce plants that will bloom the first season. Interesting and fascinating to know. The plants are dwarf and symmetrical in growth, with a wide bright color range. Make ideal pot plants for the house. Very easy to grow in any fair garden soil. This seed has been saved from the most carefully hand-hybridized blooms of the choicest variety. No. 877. Pkt. 10c; 3 Pkts. 25c;

New Japanese Chrysanthemum

This beautiful Chrysanthemum has many great merits over other varieties of Chrysanthemums. It is hardy, easy of culture and comes to flower the same autumn from seed. Naturally Japanese Mountain Chrysanthemum will grow to a wild bush if left by itself, but if pinched two or three times. A good shaped bush can be obtained by proper pinching and staking you can grow them to the most showy and artistic style of hanging or spray pot plants. If properly cultivated, they will hang down as long as 4 to 6 feet, with 2 ft. width, that may be termed as "Cascade" or "Drooping" type and will make a most fascinating decoration in the corner of the parlor or the dining room. Many different colors, white, cream, yellow, bronze, pink, rose, red, crimson, and many other intermediate shades. Full cultural directions are printed on each package so that you may obtain the same results as shown in this illustration.

No. 894. Pkt. 15c;
2 Pkts. 25c.

New Verbena Apple Blossom

An entirely new Verbena of exceptional merit. A delightful new color. The florets are almost white, shading to a delicate Cameo Pink towards the edge of the petals. The very edge of the petals being a true Cameo Pink, giving the blossom a delightful two tone effect. The individual florets are one and one-fourth inches in diameter. The flower head itself measures about four to five inches across. Under ordinary conditions the plant measures two feet in diameter. A fine Verbena that is very free flowering and comes 99% true to color.

No. 881 Pkt. 15c; 2 Pkts. 25c.

New Nasturtium

Golden Globe

A wonderful new Golden Giant Nasturtium. Extremely reliable in every way. Double dwarf compact plants. The giant double, and semi-double, sweet scented, golden yellow flowers are carried well above the foliage. An excellent Golden Nasturtium that comes perfectly true. The plants are dwarf about 12 to 15 inches tall. When in bloom it is a blaze of color. Marvelous flowers attractively displayed against shiny green foliage. An excellent variety for window boxes, pots, or the garden. No. 879. Pkt. 10c; 3 Pkts. 25c.

Celosia Dwarf Golden Feather

An unusually showy and decorative plant either for the house or garden. It makes an excellent companion plant for our "Celosia Flame of Fire" described on page seven. The bright showy golden tufts are attractively displayed against a splendid green foliage. Attracts considerable attention wherever grown. We recommend this fine strain for border or mass plantation with a space of 2 ft. apart each way. The average height is about 15 to 18 inches with a perfect pyramidal shape.

No. 880. Pkt. 10c;
3 Pkts. 25c.

Sweet Scented Double Nasturtiums

New Gorgeous, Double, Gleam Hybrids

The flower of to-morrow in the Nasturtium family. An entirely new race. We present this to our customers with perfect confidence and pride. Seeds of this character make your garden distinctive, and the envy of all. The new hybrids abound in gorgeous colored, large well formed blossoms, of dazzling beauty. Glorious flowers, in color tones never before thought of in double nasturtiums, and running the full range of scarlet, orange, cerise, salmon, golden yellow, cream and attractive mottled shades and blended tints.

No. 917. Pkt. 15c; 2 Pkts. 25c.

Giant Stocks

New Deep Rose

Double giant stocks are becoming increasingly popular. A magnificent new variety, that produces fully 75% doubles. The florets are from two inches to two and a half inches in diameter, and each spike bears as many as forty florets when in bloom. New deep rose is one of the most popular colors in the column group. A giant spike of bloom resembling a glorified hyacinth. No. 910 Pkt. 15c; 2 Pkts. 25c.

New Snapdragons

Rust Proof

An excellent large flowering mixture of all the most beautiful tints and colors. It is with confidence, and pride, that we present this excellent mixture of rust proof Snapdragons. And to the University of California, due credit for producing this marvelous strain. For vigor, beauty of color, and gorgeous blooms, we highly recommend these new rust proof Snapdragons as a distinct asset to your garden.

No. 919 Pkt. 10c; 3 Pkts. 25c.

New Cosmos

Orange Flare

A new magnificent early orange colored Cosmos. Trials of this new cosmos have caused a world of enthusiastic comment. An entirely new flower to our gardens of America. Orange Flare is in full bloom in less than four months from the time the seed is planted. The original type (Klondyke) produced its flowers, so late in the fall, that it was seldom seen except in the south. We highly recommend, this easy to grow, fine new Cosmos. One of the best new annuals. No. 918 Pkt. 10c; 3 Pkts. 25c.

Balsam Bush

Free flowering double Balsam of bushy growth. The fine double blooms, nestled among the rich green foliage, make a fine plant, either for the open garden or as a pot plant. The plants are sturdy, bushy, and very easy to grow. The flowers appear in clusters on the top stems instead of being hidden on one side. Select mixed seed. white, rose and red.

No. 920. Pkt. 15c; 2 Pkts. 25c.

Wild Flower Collection

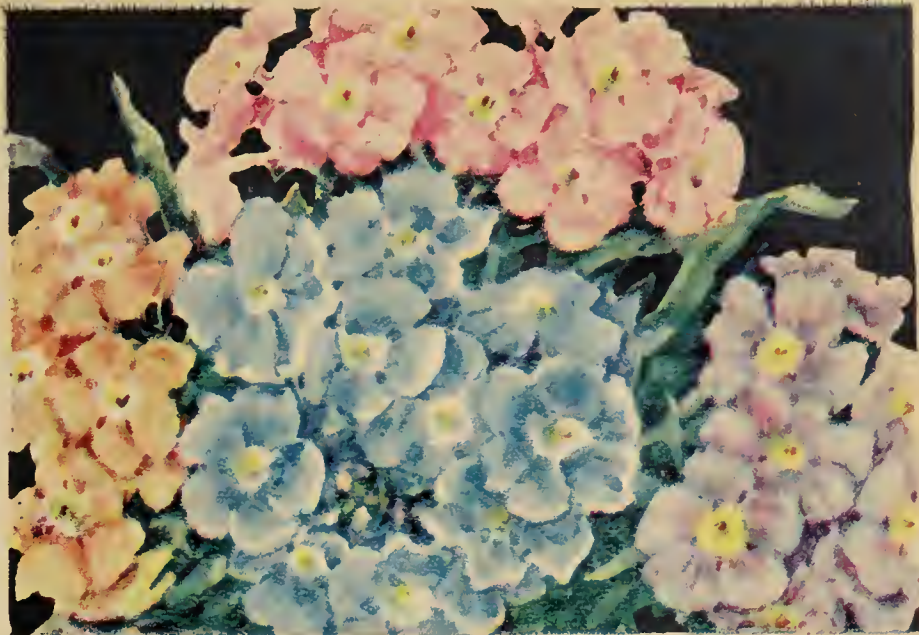

Each package contains about 100 varieties of flower seeds mixed together, and wherever planted will insure something new almost every day. Is suitable for sowing in shrubbery, and in beds on which no care will be bestowed, or even for sowing in exposed situations, where wildness is preferred to order and precision. To those who can not bestow the necessary care required in a neatly laid out flower garden, the "Wild Garden" presents a good substitute. This is without question the Grandest Collection of Beautiful Flowers. They will produce a perfect cloud of bloom and fragrance from earliest summer until the snows of winter. New beauties and wonders will open up every day. It will be a continual surprise to see the odd and curious—as well as old favorites, constantly appear. You can have bushels of blossoms for bouquets, vases and to give away. **Gorgeous Combinations of Colors.** No. 1143, 10c; 3 Pkts. 25c.

We Pay Postage on Everything Listed in this Catalog.

New Miniature Petunia Rose Gem

We were greatly impressed by this splendid new Petunia, we feel confident that it will rank as this year's outstanding novelty. Rose Gem is a charming addition to the new miniature group of Petunias which was started with Pink Gem. It is the same rich deep rose color that has made Petunia Rose of Heaven so very popular. A neat compact grower, completely smothered with rich rose colored blooms about two inches in diameter. Ideal for bedding, borders and for pot culture. We offer a select strain of fine California grown seed. No. 912. Pkt. 15c; 2 Pkts. 25c.

New Phlox Drummondii Gigantea

Award of Merit in The All American Selections
Entirely new strain of Phlox Drummondii. Our carefully selected strain of seeds produce a most wonderful range of color in soft art shades. There is a complete absence of harsh colors in this mixture. Our new strain produces enormous flowers, each separate flower being one and a quarter to an inch and a half in diameter. This alone would justify our claim, when we say, that this new Phlox ranks among the very highest of the newer flowers.

No. 913. Pkt. 15c; 2 Pkts. 25c.

Flaming Fire

New Amaranthus

A new and attractive novelty. Single specimens may be grown in pots as decorative house plants. Attractive as a background, or for planting in groups on the lawn. A member of the amaranthus family, its beauty is from its huge poinsettia like flaming fire color. Grows to a height of 3 to 4 feet, and when the leaves open up appear like an immense Dahlia. Showy from midsummer until frost. They then take on a gorgeous color of scarlet and gold. No. 916. Pkt. 10c; 3 Pkts. 25c.

New Marigold

Dixie Sunshine

This is an entirely new Chrysanthemum-Flowered type of Marigold. And another one of the very fine new flower seeds we are listing. Dixie Sunshine comes fully 100% double, its brilliant golden yellow flower is actually ahead of five-petaled flowers, giving it a lacinated effect. They are of a tall bushy growth, with rich green foliage. No garden is complete without marigolds. They are easy to grow, and bloom profusely from midsummer until after the first light frost.

No. 911. Pkt. 15c;

2 Pkts. 25c.

New Bush Verbena

Special Mention 1935 All American Selections

An entirely new dwarf Verbena. The plant is eight inches high and about eight inches in diameter. The color of the flowers when it first opens is a rich deep violet, tinged with garnet, changing to deeper violet as the flower gets older. Gorgeous flower heads, that measure two and a half to three inches in diameter. This charming new Verbena is very symmetrical in appearance, and has from twenty to thirty trusses of flowers in bloom at the same time. Easy to grow, and require little attention when once established. An outstanding novelty. No. 914. Pkt. 15c; 2 Pkts. 25c.

New Petunia Martha Washington

Award of Merit 1935 All American Selections

A unique and entirely new Petunia. Grows about nine inches high, and forms a perfect ball effect, the plant being literally covered with lovely ruffled or frilled blooms, about three inches in diameter. The color of this new Martha Washington is remarkable. The frilled portion of the flower being a beautiful blush pink, and the center is strongly veined a rich wine red, deepening in the throat to dark violet, the whole forming a strong contrast in colors. It is 100% true to color and suitable for borders, bedding, pots or window boxes.

No. 915. Pkt. 15c; 2 Pkts. 25c.

Petunia-Dwarf Giants

A new sturdy, giant-flowered, yet compact and dwarf growing form, of the superb petunia strain. Giants of California. The well rounded bushes rarely grow over seven inches in height and bloom so profusely that the plants are one mass of color most of the season. The shades are rich and brilliant in tone, with throat markings of unusual interest. Mixed Colors. No. 900. Pkt. 15c; 2 for 25c.

New Flowering Kale

Although belonging to the same family of Cabbage and Kale, this Flowering Kale is entirely a different sort of plant as to its appearance. In young stage its leaves are green just like ordinary Kale, but in autumn as the weather advances, remarkably beautiful colors begin to appear, and paint the whole plant in self colors and in variegation. Considering its conspicuous color and its marvelous keeping quality, this Flowering Kale should gain great popularity as pot plants for X'mas or New Year decoration or as bedding out plants for winter and spring borders. An eastern nurseryman writes as follows. It is very interesting, and nobody in this section of the world had ever seen anything like it before. In fact, I made a dinner decoration of a few of the selected heads at a Rotary one night, and I can assure you it created quite a furore. Most of the members were not quite sure whether they were Coleus or Chrysanthemums. They are very easily grown. No. 967. Pkt. 20c.

New Giant Red Aster

An entirely new giant single Aster with beautifully curled and interlaced petals. It is an intense brilliant red, which seems to be doubly emphasized by the bright yellow center. The color is so bright that it instantly catches the eye. It is a strong grower about 18 inches high, with good stems and many flowers to a plant. It is wilt resistant.

No. 896. Pkt. 10c; 3 Pkts. 25c.

New Calendula

Orange Shaggy

Orange Shaggy is a new creation. The petals are long and deeply fringed or laciniated. Row after row of these long fringed petals overlap each other in a rather irregular fashion, making the appearance of the bloom similar to a chrysanthemum. The color is deep orange shading to a brighter orange in the center, giving a delightful two tone effect. 18 in. high. No. 899. Pkt. 10c; 3 Pkts. 25c.

New Fragrant Pansies

A remarkable new novelty which we highly recommend. Pansies with a really delightful perfume. Gorgeous flowers beautifully marked are borne in great abundance. A dozen or two flowers in any ordinary room will fill the entire air with their delightful fragrance. An interesting and entirely new flower. No. 869. Pkt. 15c; 2 Pkts. 25c.

Dianthus

Sweet Wivelsfield

A sweet scented annual, blooms the first year from seed. Closely resembles Sweet William but the flowers are larger. Its delightful color range, sweet perfume, and long-flowering period, make it very desirable. Of easiest culture in any fair soil. No. 898. Pkt. 10c; 3 Pkts. 25c.

New Annual Canterbury Bell

Wedding Bell

A fine new annual strain. Blooms from seed in less than 5 months. Start the seed indoors and you will have blooms in July. These new canterberry bells will we are sure, enjoy a widespread popularity. Our mixture made up of named sorts contain, blue, rose and white in many different shades. No. 891. Pkt. 10c; 3 Pkts. 25c.

New Dahlia

Coltness Gem

Remarkably showy bright scarlet Dahlias produced in great profusion. Very compact growers 15 to 18 inches. Bloom in 4 months after sowing seed. Grow some Dahlias from seed and enjoy the new colors and artistic forms that you will find by growing Dahlias in this interesting and fascinating manner.

No. 901. Pkt. 10c; 3 Pkts. 25c.

Aster California Giants

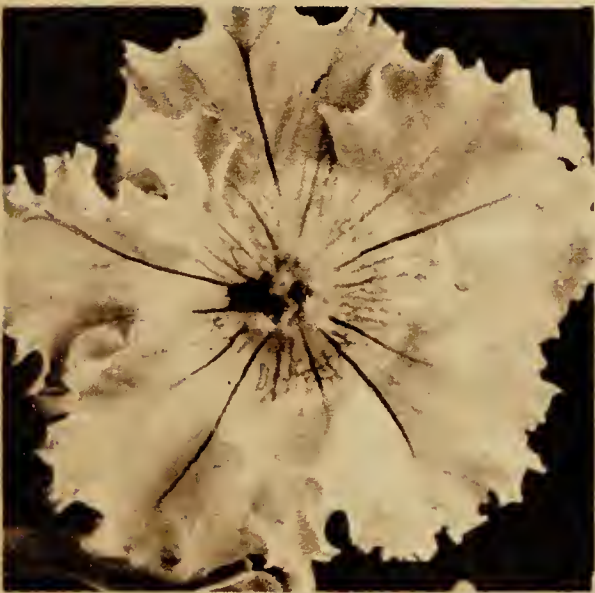

A marvelous strain combining the feathered Crego with the American Beauty class. Giant flowers with long curled petals, very double. Blooms grow 5 to 6 inches in diameter, stems 1½ to 2 ft. long. A vigorous grower and without an equal as a cut flower. A wonderful color range of Blue, Purple, Rose, White and Peach in many varied shades. No. 872. Pkt. 10c; 3 Pkts. 25c.

New Cactus Dahlia

An entirely new introduction as easily grown in the Amateur garden as the Zinnia, blooming from Seed the First Year, even when planted as late as May 1st. It is a quilled type Cactus Dahlia. The root slips may be saved, and kept over winter to be planted again in the spring. Single blooms are often over 4 inches in Diameter.

Mixed Colors. No. 1239. Pkt. 15c.

Murvon's Giant Petunias

A special collection of many fine Petunias in a splendid array of the most gorgeous colors. Flowers are of immense size, beautifully veined and blotched, some are fringed and ruffled. Blooms often measure 5 to 7 inches across. Truly marvelous in their richness of colors. An endless delight from early summer until frost.

No. 866. Pkt. 10c; 3 Pkts. 25c.

Giant Ruffled Sweet Peas

These new Giant Ruffled Sweet Peas are of recent introduction. They are the result of careful breeding and selection. This outstanding mixture of many gorgeous colors is composed of the very best sorts, selected from recent novelties, which give them the most striking appearance. Not an ordinary mixture but a careful blend of named sorts in perfect color harmony. A distinct strain with large frilled duplexed blooms on long strong stems. No. 1199. Pkt 10c; 3 Pkts. 25c.

Every packet of seed we sell has full cultural directions plainly printed on the face of each seed packet. You make no mistake when you grow Murvon's Seeds.

Celosia Flaming Fire

A very showy and decorative plant, either for pots, borders, or mass plantation. An extremely brilliant fiery red. Attractive bright green foliage. Grow 15 to 18 inches high, very uniform in shape and height. Plants when fully grown present a most striking appearance, the bright fiery flower tufts covering the plant make it look as if it was on fire. An unusual novelty that will attract considerable attention.

No. 871. Pkt. 15c; 2 Pkts. 25c.

Marigold Yellow Supreme

A new Marigold of exceptional merit. The large dazzling fluffy yellow blooms are delightfully sweet scented. Blooms measure almost 3 in. in diameter. A Marigold that is entirely different, and with flowers that closely resemble giant Carnations. A vigorous grower, easy to grow. Plants bloom profusely from midsummer until frost. Excellent for cut flowers.

No. 874. Pkt. 10c; 3 Pkts. 25c.

Aster Los Angeles

These super giants are without a peer among the Asters. Similar to Giants of California, but earlier and larger. Petals are gracefully curled and interlaced. The coloring is unique, being a pure shell-pink. A strong upright vigorous grower. Stems are long and strong, ideal for cut flowers. A wonderful new type of Aster.

No. 873. Pkt. 15c; 2 Pkts. 25c.

Petunia Cockatoo

Novel, interesting and attractive. A remarkable dwarf Petunia growing only 13 in. high. Ideal for pots, bedding or borders. Colors are unique being a beautiful dark violet blue with irregular white markings. Plants are compact and remarkably uniform in growth. The flowers are large and completely cover the plant. A selected strain.

No. 868. Pkt. 10c; 3 Pkts. 25c.

Murvon's Annual Flower Seeds

Annuals are flowers which grow from seed and bloom the same season. We offer a comprehensive list of the standard and novelty items, that are easily grown by amateurs. Many of them having been raised specially for us by both domestic and foreign specialists. We guarantee our seed to be of the

finest quality and have spared no expense to make it such. Prices have been kept as low as it is possible to sell high quality seed. We also pay the postage. Cultural directions are printed on every package of seed.

Giant Branching Aster

An excellent strain of wilt resistant Aster. From midseason until frost, these asters bear a profusion of gorgeous flowers. It is an extremely vigorous grower. The plants are tall, growing from 2 to 3 ft. its branching habit being accompanied by a vigor of bloom, not seen in any other type. The long stems make this an ideal aster for cutting. Enormous flowers of vivid colors, globular in shape, petals are long and incurved. Plant them liberally, we are confident that nothing you might plant will give such a dazzling blaze of color in the garden. They come in a wide range of lovely colors. No. 977 Blue Flame No. 980 Royal Purple No. 981 Deep Rose No. 978 Shell Pink No. 979 Crimson No. 982 All Colors Any of these separate colors Pkt. 10c; 3 Pkts. 25c; 1/4 oz. 75c.

Queen of the Market

THE EARLIEST FLOWERING ASTER

Our early strain of Queen of the Market is a most valuable type for bedding as well as cutting. They are the first to come into bloom, and continue blooming until checked by frost. Very easy to grow, and are valuable either for the florist or the home garden. Plants are 18 inches high and branch freely, their long stems making them ideal for cut flowers. Planted in the spring will give you flowers by June. We have six excellent colors. No. 984 Crimson No. 986 Dark Blue No. 988 Light Blue No. 985 Purple No. 987 Scarlet No. 989 Select Mixed Pkt. 10c; 3 for 25c; 1/8 oz. 60c.

Early Royal

Marvelous double flowers 3 1/2 inches across, with broad incurved chrysanthemum like petals. Large-flowering branching type in gorgeous colors, long strong stems. This Aster closely follows Queen of the Market, a fine strong grower, one of the kind that never fails to give satisfaction. Our mixture is carefully selected, colors—azure blue, peach, purple, and shell pink. No. 990. Pkt. 10c; 3 Pkts. 25c; 1/8 oz. 60c.

Murvon's Wilt Resistant Asters

The new Wilt Resistant Asters have entirely taken the place of the older types. Our Asters are bred for resistance to fusarium wilt, and are absolutely immune from this common Aster disease. If you have been discouraged in growing Asters in the past, you can now plant our new Asters with absolute confidence of perfect results.

Crego Giants

Plants grow about 2 feet in height, branch well, have long and strong stems, and bear most artistic, fluffy, Chrysanthemum-like flowers, often 5 inches in diameter. The Crego Aster always commands a high price on the market and it is a most lovely sort for the home flower garden. No. 983, Pkt. 10c; 3 Pkts. 25c; 1/8 oz. 60c.

Giant Astermums

The most admired of the Aster family, unquestionably the largest. In our opinion, this is the most beautiful of them all. Strain is the finest and largest of all Astermums, the flowers measuring up to 6 inches across. On account of their immense size and chrysanthemum-like appearance they are called Astermums. No. 1230. Pkt. 10c; 3 Pkts. 25c; 1/8 oz. 60c.

Giant Ostrich Feather

A feathered type of the most charming colors, blue, white, rose, crimson and pink in many shades. Feathery full double flowers, petals curled and twisted, borne on strong stiff stems. A fine strong grower, well branched. A fine aster for cutting or garden display. No. 957. Pkt. 10c; 3 Pkts. 25c; 1/8 oz. 60c.

American Beauty

A beautiful type of Asters with large flowers fully double as they are packed to the very center with petals and the plants 2 to 2 1/2 feet tall bear a profusion of blooms, all on long, strong stems and one of the finest for cutting. Plants bloom from early August until frost. A very fine display Aster. No. 1227. Pkt. 10c; 3 Pkts. 25c; 1/16 oz. 35c.

Ageratum Free Flowering

Of dwarf, bushy habit which never attains a height of over six or eight inches. This is extremely free flowering, the individual tufts of bloom are very large and dense. The most beautiful ever seen in the Ageratum family. This is very desirable for borders, edging, etc. Makes a lovely pot plant. New Hybrids No. 1037—Pkt. 5c; 1/16 oz. 30c.

Amaranthus Gorgeous Bright Colors

A very attractive foliage plant. Leaves are of a brilliant color the outer foliage being a bright scarlet tipped with gold, the inner foliage being of a dark bronze tipped with green. Showy from midsummer until frost. No. 971. Pkt. 5c; 1/4 oz. 30c.

Alyssum

A favorite little annual, because of its fragrance and abundance of bloom. As easy to grow as any weed, and blooms from early summer until severe freezing weather in fall.

LITTLE GEM—An improved variety; much larger flowers, of a pure white, and, if possible, more floriferous than the old sweet. Plant is also more robust and spreading, a single plant forming a thick mat of flowers and foliage twelve to fifteen inches across. No. 1036—Pkt. 10c; 1/8 oz. 25c.

Abronia

Sand Verbena

Umbellata Grandiflora. A quick growing, trailing annual, which may be used for growing in baskets, rock gardens or open borders. A delightful plant, the trailing stems often reach a length of 3 to 5 ft. completely covered with verbena-like flowers of rosy lilac during summer and fall. Does well in poor soil or sunny situation. No. 974. Pkt. 5c; 1/16 oz. 20c.

Black-Eyed Susan

An old favorite greatly improved. It will trail over the ground, forming a dense mat of foliage and flowers. Colors range through all shades of yellow, orange, buff to pure white, mostly with jet black centers, or eyes. No. 1067. Pkt. 5c; 1/4 oz. 25c.

Begonias

Our choice strain of seed is of the ever-blooming varieties. A splendid plant for borders, bedding, window boxes, and plants for the house. A continuous bloomer, bearing in great profusion many flowers of brilliant colors, from summer until the fall. They may be started early indoors for summer blooming. Seed started in the summer make excellent decorative winter house plants. Begonia seed is very fine so plant shallow. No. 1184. Pkt. 15c; 2 pkts., 25c.

Burning Bush A Ball of Fire

This beautiful annual bush has rapidly come into prominence. It grows 2 1/2 feet high and resembles a close clipped ornamental evergreen. The globe-shaped or pyramidal bushes are close and compact, of a pleasing light green color. The plant may be grown singly or in the form of a hedge or background. In early Autumn the whole bush becomes carmine or blood-red, hence the name Burning Bush. No. 1153. Pkt. 10c.

Butterfly Bush

So-called because it seems to attract butterflies in large numbers. We notice that it is not alone the common little yellow species of butterfly, but also the large and gorgeously colored butterflies that swarm about it. It produces long graceful stems. The buds and foliage also are inborne by the hundreds on a flower head which is frequently ten inches long. When in bloom plants are literally covered with beautiful orchid-like flowers, curiously marked with crimson, purple, lilac and yellow blotches.

No. 1175. Pkt. 10c; 1/16 oz. 25c.

Bachelor's Button

Here is a splendid annual, showy in the garden, very easy to grow, blooms continuously during summer and fall. Excellent for bouquets as they are one of the best flowers for cutting. They retain their color and shape for 24 hours after being cut without water. Our strain of seed produces a riot of all the latest colors white, rose, blue and variegated colors. Double mixed. No. 1068. Pkt. 5c; 1/4 oz. 25c.

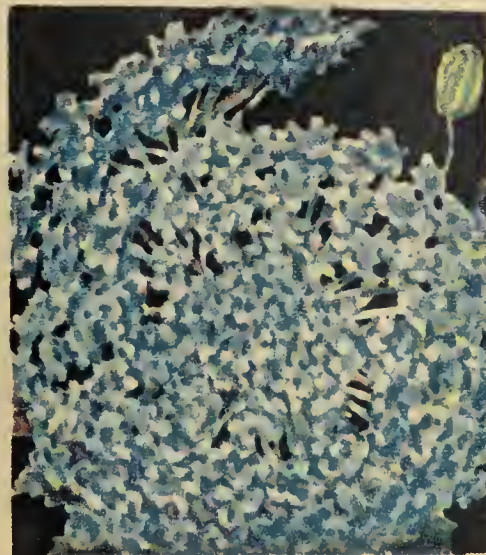

Brachycome

Swan River Daisy

Very attractive, growing about a foot tall. The plants form compact little bushes branching close to the ground and bearing small Cineraria or Daisy like flowers on the end of each branch. The color of the flower is bright blue.

No. 1232. Pkt. 10c; 1/8 oz. 25c.

Blue Lace Flower

Resembles Queen Anne Lace, but the florets are considerably larger and of a rare blue color. The plant is a rapid grower, bears many large clusters composed of a great mass of florets on long, strong, graceful stems. The buds and foliage also are interesting and beautiful. The Blue Lace Flower blooms freely in the garden from July to October or until the first hard frosts. No. 1100. Pkt. 5c; 1/8 oz. 30c.

Giant Double Balsam

Balsam Giant Double

The gigantic flowers are double and perfect. It is not uncommon to see more than 500 of these magnificent flowers upon a plant at one time, the branches being perfect pyramids of bloom. The Balsam is one of the most beautiful and easily grown of all garden annuals.

PINK. Blooms are fully double rich pink color.

No. 969. Pkt. 5c;

¼ oz. 30c.

SCARLET. Fiery scarlet shade very double and attractive. No. 970. Pkt. 5c; ¼ oz. 30c.

Mixed Colors—dazzling in brilliancy large beautiful buds, double and perfect. No finer mixture to be obtained. No. 1041. Pkt. 5c. ¼ oz. 25c.

Canary Bird Flower

A dainty vine with beautiful cut leaves and pretty delicate flowers of a clear canary yellow. From the color of its blossoms and also from a fancied resemblance of their shape to a bird with wings expanded, the plant obtained its common name. A very pretty vine for the window. Can be planted at any time of the year and are very easily grown. We may really class the Canary Bird Flower as one of the most popular of the vines.

No. 1056—Pkt. 10c.

Calendula

Well known, showy, hardy annuals, growing well in any good garden soil, flowering very freely, and continuing to bloom from June to November; 12 to 18 inches high. Calendulas have become very popular of late; the striking orange, red and yellow blooms are very attractive.

CAMPFIRE. Large flowers of deepest orange with a scarlet sheen. An excellent strain for cutting, either garden or pot culture.

No. 965. Pkt. 10c;

3 Pkts. 25c.

Orange shaggy
see page 6

Electric Light Plant

The seed is grown for us in Japan. It is a sturdy, husky plant, of about four or five feet, covered constantly with large spikes of flowers, 6 to 9 inches long, which are pure white at the base and range from rose to bright red at apex. These flowers resemble electric light bulbs which are all lighted up. Grows readily from seed and can be planted in the house any time or in the open ground in early spring. Very showy and ornamental, makes a nice, pot plant.

No. 1016—Pkt. 10c.

Chinese Bartonia

One of the most showy of all hardy annuals. The plants grow 18 inches to two feet high, with thistle-like downy leaves. It is very easily grown, thrives anywhere and the plants begin to flower early and bloom continually throughout the summer. Our strain of this seed has been very carefully selected. By all means include this fine little flower in your garden. It will add interest to your collection of flowers.

No. 1042—Pkt. 10c.

Giant Cosmos

A tall, graceful, showy annual, enjoying the widest popularity. Blooms profusely in late summer and autumn. Excellent for cut flowers. Plants 4 to 5 feet high; should be used freely for background or tall hedge.

GIANT LATE FLOWERING
A new strain of early, large flowered Cosmos mixed colors. No. 1043. Pkt. 5c; ¼ oz. 20c.

EARLY EXPRESS

Earliest to bloom. Large-flowering, showy colors. Mixed colors. No. 958. Pkt. 10c; 3 Pkts. 25c.

EARLY MAMMOTH

Large flowers, two weeks earlier than late Cosmos. Mixed colors. No. 959. Pkt. 5c; ¼ oz. 20c.

Cosmos Early Express

Double Crested

This new sort produces beautifully formed, round, crested flowers in shades of red, pink and white. As valuable for garden display as for cut flowers. 3 to 4 ft.

CRIMSON KING

Showy large flowers, of a vivid crimson. No. 960. Pkt. 10c; 3 Pkts. 25c.

PINK BEAUTY

Extra large pink flowers with a cushion center. No. 961. Pkt. 10c; 3 Pkts. 25c.

WHITE QUEEN

Fine pure white flowers. No. 962. Pkt. 10c; 3 Pkts. 25c. **SPECIAL MIXTURE.** All the distinct varieties in all colors. Will supply you with beautiful flowers throughout the season.

No. 963. Pkt. 10c; 3 Pkts. 25c.

Early Double Crested

Canna Seed

Cannas, with their luxuriant foliage and immense flowers of the most brilliant colors, are easily the most useful and showy garden plants for the American climate. Seeds should be started in the house in March and April. Mixed colors. No. 964. Pkt. 10c.

Catch Fly Plant

It has two plump leaf lobes, set nearly at right angles to each other, like the pages of a book held open, each lobe being fringed at the outer edge by a single row of sharp thorn spikes which interlock like the gates of a prison behind the unfortunate insect which chances to alight upon the surface of the leaf or even to brush lightly against one of the three tiny filaments which project upright from each lobe and which warn the plant of the presence of its live prey. A wonderful plant which every one should have to drive away the flies. No. 1142—Pkt. 10c.

Clarkia

One of the old fashioned flowers that have always made our gardens so beautiful. We have noted during recent years an increasing demand for these type of flowers. Easily grown, doing well in rather poor soil, either in full or partial shade. The fine display of striking colors are very attractive, either in the garden or the house. This is a fine new variety we highly recommend.

No. 997. Pkt. 5c; $\frac{1}{8}$ oz. 25c.

Candytuft

Hyacinth Flowered Type

Highly prized as a new and welcome addition for the rock garden, for the flower border, or for growing in pots for the house. A beautiful compact plant that produces four to six spikes, making a dainty little plant. They are easy to grow and soon flower from seed. A select strain of seed.

No. 1046. Pkt. 10c; 3 for 25c.

Celosias (Cockscomb)

Their brilliant, showy, deep crimson red heads, of a velvety finish make a fine display in the garden. They may be used for winter decoration. One of the most brilliant of summer bloomers, they are easily grown. No. 992. Pkt. 5c;

$\frac{1}{16}$ oz. 20c.

GIANT PLUME CELOSIAS. One of the most brilliant summer bloomers. The giant plumes or tufts of scarlet and gold make a splendid display for the garden or cutting.

No. 954. Pkt. 5c; $\frac{1}{8}$ oz. 25c.

Forget-Me-Not

Myosotis

For many years the lovely flowers of the Forget-Me-Not have been very highly prized. Very free-blooming, and of easy culture. Seeds sown in early autumn will bloom beautifully in the spring. They thrive in any soil and produce flowers of blue, white, rose and other shades. Select mixed. No. 1091. Pkt. 5c; $\frac{1}{8}$ oz. 25c.

Dianthus

The flowers are distinguished for their brilliant, contrasting variety of colors appearing in each flower. The stripes and spots make the clusters stand out distinctly—The petals are deeply cut into fine stripes of thread-like fringes. All shades from pure white to deep purplish red.

Very easily grown from seed. Should be sown outdoors in early spring. In a few weeks plants will be up and you will be delighted with their riot of color and pleasing odor. Fine mixed No. 1072.

Pkt. 5c; $\frac{1}{8}$ oz. 20c.

Euphorbia

SNOW ON THE MOUNTAIN (Variegata) An unusual annual, fine for mass planting. The top leaves being very attractively marked with white. They are easily grown from seed and do well in any fair soil. No. 955. Pkt. 5c; $\frac{1}{8}$ oz. 25c.

MEXICAN FIRE PLANT (Heterophylla). A very attractive annual resembling the beautiful Poinsettia with its leaves of brilliant scarlet. Very showy, excellent for massing in beds or borders. Easy to grow in any soil. No. 956. Pkt. 5c; $\frac{1}{8}$ oz. 35c.

Dahlias

But few people know Dahlias can be raised from seed and will bloom the first year. The seeds germinate as easily and certainly as Zinnias, and from the very first development are strong and sturdy little plants. Plant them in a shallow box or pan in March or early April, transplant them carefully as their growth demands, and keep the soil moderately moist.

Do not be afraid to grow Dahlias from seed, you will be more than pleased with the results. Again there is always a chance that you may produce some new sorts that will be of value to you.

Mixed colors No. 1179. Pkt. 15c;
2 Pkts. 25c.

Feverfew

It makes an ideal pot plant also very effective for bedding. When planted in a mass it looks like a beautiful blanket. It is free flowering, producing fine double white flowers all thru the season. Grows to a height of about 18 inches and is easily grown from seed.

No. 1189. Pkt. 10c.

Coleus

The handsomest foliage plant obtained from seeds. The leaves are often ten inches long and eight inches wide, they are heart shaped and handsomely crimped tooth and frilled. Their color combinations are remarkably rich, comprising all the reds, metallic, greens and yellows to deep black. Coleus Seeds. No. 1171—Pkt. 20c.

Tall Branching Double Larkspur

Larkspur

These beautiful Larkspurs are of the Delphinium family and are extremely popular. They are very effective in borders and planted amongst shrubs. The colors are gorgeous. The plants will be in bloom within 3 months from the time of sowing seeds and will continue long in flower. An ideal plant for cutting, the graceful spikes being particularly well suited for vase decorations. Sow the seeds in early spring or late fall where it is intended to remain. They grow about 3 feet in height and should be kept about 12 inches apart. Larkspurs will be a great favorite in your garden.

TALL BRANCHING DOUBLE STOCK-FLOWERED. A splendid type 3 to 4 ft. tall. Greatly improved in the size and color of its blooms. Tall long spikes closely set with large double flowers in charming colors of rose, pink, white striped blue, carmine, lilac. Mixed colors. No. 1200. Pkt. 10c.

EARLY GIANT HYACINTH-FLOWERED. An improved early blooming type, notable for its large, very double flowers, 3 to 4 ft. Mixed Colors. No. 951. Pkt. 10c; 3 Pkts. 25c.

EMPEROR OR DWARF BRANCHING. An outstanding type for bedding and pot culture. Large closely set well formed blooms 18 to 24 in. Mixed colors. No. 950 10c;

Gaillardia

A showy annual growing about 15 inches tall. Easily grown, sow seed in the spring and you will have plenty of gorgeous flowers 2 to 3 in. across from early summer until frost. Very free flowering making a gorgeous display of colors, bronzy red, yellow banded and many other shades. Special mixture. No. 1193. Pkt. 5c; 1/8 oz. 25c.

Godetia

Sybil Sherwood

One of the most beautiful Godetias ever introduced and given an Award of Merit by the Royal Horticultural Society. The color is a gorgeous shade of bright salmon pink softened by an edging of white. The plants grow about 20 inches high, strong stemmed and so free flowering that the foliage is almost hidden from view. Flowers are ideal for cutting, with long stems and good keeping qualities.

No. 953. Pkt. 10c. 3 Pkts. 25c.

Heliotrope

An Old Time Favorite

Heliotrope is a universal favorite on account of its delightful fragrance and duration of bloom, flowering equally well as bedding plants in summer, or as pot plants in the house during winter. Seed sown in the Spring makes fine plants for bedding out, and are as easily grown as Verbenas. The colors of the blossoms range from white through all shades of violet to the deepest purple. Select Mixed. No. 1120. Pkt. 10c; 3 Pkts. 25c.

Gourds

A Rapid Growing Vine

These are desirable in many places where an immense amount of vine is wanted quickly. Most sorts are good for 20 to 30 feet in a season and the blooms of some are quite striking and handsome. With many sorts the fruit is unique and ornamental and often useful. The small fancy are excellent toys for children, while the larger gourds may be used as dippers, sugar troughs and bowls. You undoubtedly would like some novelties in your garden. Gourds make a very interesting plant and will always cause your neighbors or visitors to stop and give them some attention.

Mixed, all varieties — Dishclothes, Dippers, Pipes and Bowls, etc.

No. 1075. Pkt. 15c.

Mosquito Plant

This plant is an annual and grows from 4 to 10 ft. high. It will make a wonderful center plant for a bed or a good border plant to hide an unsightly place. Very rapid grower. Plant one of these alongside of your porch and you will never be bothered with mosquitoes when sitting outside, as they prefer the sap from the leaves to blood. Any hot night look under the leaves and you will find mosquitoes by the thousands.

Very easily raised from seeds. The plants attain great dimensions, making a wonderful show. They have light and dark green leaves and some are coppery bronze with reddish ribs. A very tropical appearing plant. No. 1093. Pkt. 10c; 3 Pkts. 25c.

New Double Hybrid Nasturtiums *Sweet Scented All Colors Mixed*

Since Double Golden Gleam was created, gardeners everywhere have been eagerly awaiting Double Nasturtiums with more colors. At a tremendous expense of money and time, we are now able to offer our customers a wonderful range of colors, pale primrose, yellow, orange, salmon and gold, salmon pink, rose, art shades, cerise, scarlet, crimson, blood red, deep maroon and mahogany. Many flowers with solid colors thruout, others shaded with showy markings and contrasting colors. The double and semi double flowers are fully 3 inches across, carried on stiff stems well above the foliage, and are delightfully sweet scented. An excellent flower for the garden or for cutting. Double Gleam Hybrid Mixture. No. 947. Pkt. 10c.; 3 Pkts. 25c.

Murvon's Choice Annual Phlox *Vivid Colors—Long Blooming Season*

The annual Phlox surpasses almost everything else in dazzling brilliancy and yet is of the easiest culture. Plants are of neat, compact growth and will thrive in any soil, it gives a sunny location. Plants from seed sown in open ground in fall or early spring will begin flowering in June and remain literally covered with bloom until late in autumn.

For richness of color nothing can surpass our annual mixture of Phlox, they come in every conceivable color (see illustration). Our mixture is very choice being saved only from the finest flowering plants. It is a specialty with us that we are proud of. Choice mixed. No. 948 Pkt. 10c; 3 Pkts. 25c.

New Sensation Scarlet

An entirely new Double Sweet Scented Nasturtium of a dazzling scarlet. Flowers are immense in size, double and well formed, free blooming, bearing large flowers well above the foliage. Plants are of semi-dwarf habit. Individual blooms are of large size fully 3 inches across borne on long strong stems. A real sensation among the nasturtiums. Seed is very limited and scarce. No. 946. Pkt. 15c; 2 Pkts. 25c.

New Golden Gleam

Very quickly acclaimed as the finest double golden yellow, sweet scented nasturtium ever grown. Few new flowers have taken such a hold as this new wonder. Their brilliant golden blossoms are fully 2½ to 3 inches across are borne well above the foliage on stems 6 to 8 inches long. Plant them this year for a fine showy garden.

No. 945. Pkt. 10c; 3 Pkts. 25c.

Fringed All Double Giant Petunia *Produces 100% Double Flowers*

100% Double-flowering Petunia in Giant Fringed type is one of the most outstanding discoveries of recent years. We have tried our special strain in our Trial Ground dozens of times but each test found to be absolutely true-to-name. Moreover, in our strain, if you save all of the seedlings including the weakest, the percentage of small flowering doubles (which are commonly called Carnation-flowered) does not exceed more than 22%, the remaining will be all large-flowering well fringed double. The flowers are very large, often measuring 5 inches across, exquisitely ruffled and fringed and contain vast range of many brilliant and intermediate colors.

No. 1236. Pkt. 20c.

Large Flowering Balcony Petunias

Especially suited for window boxes, hanging baskets and porch display. The large flowers are of rich velvety colors. When planted in window boxes, their gorgeous blossoms will give a dazzling display. Will bloom until late fall. Balcony Mixed. A choice mixture of the best named sorts and colors.

No. 949. Pkt. 10c; 3 Pkts. 25c.

Lobelia

The compacta are excellent plants for beds or borders. The trailing varieties are very effective in window boxes or hanging baskets. A charming little annual that blooms easily and quickly from seed.

Crystal Palace (Compacta) Very attractive true dark blue with dark foliage.

No. 943 Pkt. 10c.

Sapphire (Trailing) Navy blue, white eye splendid for pots or boxes.

No. 944. Pkt. 10c.

Compacta Choice Mixed. A specially prepared mixture of the best Lobelias of all colors in the dwarf compacta sorts. No. 991 Pkt. 10c; 3 Pkts. 25c.

Lupines

A Handsome Flower

Do you know the full beauty of the lovely spikes of Lupinus. They are free flowering, easily grown annuals, bearing long graceful pea shaped flowers of various colors. An invaluable plant for mixed borders and beds. Very useful for cutting for bouquets and home decoration. They grow to a height of 3 feet and require a well prepared garden soil. The seed should be sown in a half shady situation as they are not fond of too much sun. Lupines are increasing in popularity every year.

No. 1192. Pkt. 10c.

Verbena

A very desirable tender perennial both as a house plant and for growing outdoors. The plants are bushy and spreading and average 1 to 3 feet in height. The flowers are not unlike Verbena. The colors, however, being usually more delicate shades in white, rose, orange, etc. They do well in a sunny situation. After a frost lift the plants, cut well back and repot and keep in a moderately cool house. Set out the following spring. No. 1012. Pkt. Mixed Colors. 15c.

Impatiens

A very fine annual either for window boxes or bedding. Does very well in shady location the ideal location being half shady, where the sun will not strike too hot. It is remarkable for its long duration of bloom. A very charming plant for winter blooming. **Holstii Hybrids**—They range in color from pink through the red shades to purple violet.

No. 1122. Pkt. 10c.

SULTANI—Rosy flowers, glossy green foliage.

No. 1123. Pkt. 10c.

Nicotiana

One of the easiest annuals to raise and one of the most effective. The blossoms in shape are not unlike a Petunia blossom, but with a longer tube. The flowers open toward evening and emit a powerful perfume.

Nicotiana is a useful half hardy bedding plant. They have very free blossoms and average 2 to 3 feet high. Our strain of seed is the very finest and we highly recommend this useful plant as an addition to your garden.

Affinis Hybrida—Splendid hybrids in blue, red and rose, etc., shades.

No. 1097—Pkt. 10c.

Variegated Hop Climber

This is the annual Japanese Hop which, like the Kudzu Vine, is a wonderfully quick and vigorous grower. The large handsome leaves are beautifully variegated white, green and yellow. One of the prettiest, handsomest and showiest of all climbers. Heat draughts and insects do not trouble it. Makes a very pretty show running around your porch or windows or for covering unsightly objects, tree stumps or tool houses. A highly ornamental vine and one that will grow in any situation and cover an immense amount of space, reaching 15 to 25 feet. No. 998—

—Japanese Hop—Pkt. 10c.

Hollyhock

A beautiful Garden Flower. The perennial varieties flower only the second year if grown from seed, these annual kinds, however, bloom the first year, and if sown in the open ground in May, they will be in flower in August, but if started indoors and set out in May, they will bloom in July. They are continuously covered with large flowers in many beautiful colors.

Everblooming Double Mixed—Double and semi-double. No. 1119—Pkt. 10c.

NOTICE We sell only the very highest quality of seeds. Cheap seeds are dear at any price. Our seed packets all have cultural directions and honest to goodness value inside.

Evening Primrose

(Oenothera)

An exceptionally charming plant exceedingly showy and decorative. The flowers open at dusk, hence the name evening primrose. They emit a delightful perfume.

Plants make a growth of about 2 ft. covered with rich golden and white flowers from June to September.

No. 1190. Pkt. 5c; 1/4 oz. 25c.

Nigella

Is a very popular annual also commonly known as "Devil in the Bush" of very easy culture growing in almost any average garden soil. It is free flowering with attractive feathery foliage, has curious looking seed pods. Our seed is an exceptionally fine variety, bearing long stems with large semi-double flowers of a lovely delicate blue.

Blooms in 8 weeks from seed.

No. 1196. Pkt. 5c.

Grow Water Lilies

Zanzibar—Water Lilies from seed. The flowers are beautifully shaded with deep rose pink or sky blue. Seed should be planted in a shallow dish of water partly filled with rich soil. Place in a warm sunny window and when young plants are well started transplant to large tubs. No. 1214. Pkt. 25c.

Scabiosa

A fine strain of new Scabiosa in many gorgeous colors. These beautiful bloomers are carried on long stiff stems making them ideal for cutting. The blooms are particularly large. Color range is complete with red, white, rose, maroon, azure and peach in all their shades. Easily grown and if sown in the spring will bloom in July, 2 to 3 ft. No. 1108. Pkt. 10c; 3 Pkts. 25c.

Giant Flowering Zinnias

Giants of California

Magnificent flowers 5 to 6 in. across. This new double giant has overlapping petals more loosely placed than in any other type. The flower is more flattened giving a distinctive shape that is most graceful and attractive. The vigorous well branched plants grow 3 ft. or more tall, long strong stems fine for cutting. Gorgeous new colors of every shade mixed. No. 976. Pkt. 10c; 3 Pkts. 25c.

Baby's Breath

Gypsophila

A quick grower with myriads of small open, bell-shaped flowers. Does well in any soil and an open situation. Fine for planting along walls and sunny slopes. The plants grow 10 to 15 inches tall and are excellent for bunching with other flowers. Choice Mixed. Many bright colors, red, carmine, pink, white. No. 1101. Pkt. 5c; 1/8 oz. 25c.

New Giant Verbenas

Splendid for beds, borders, porch boxes and rock gardens. Large trusses of gorgeous blooms about 1 ft. high. Bloom from midsummer until frost. A fine selection of bright colors and assorted shades, blue, pink, scarlet, rose and white. Individual florets measure over 1 in. in diameter. No. 1155 Pkt. 10c; 3 Pkt. 25c.

Grow Some Violets

One of the most beautiful, delicate appealing flowers on earth. Everyone is familiar with this charming flower, its delightful fragrance is not equalled by any flower grown. Careful experimenting during the last few years with different seed has enabled us to contract with a famous English grower having the finest violet seed known and remarkably easy to grow in the garden. No. 1010. Pkt. 10c.

New South African Daisy

Ursinia Anethoides

A stately flower of brilliant orange with a brownish red heart, a wonderful flower for cutting, having very long stems. An improvement on the old South African Daisy the flowers being double the size. A fine showy annual, easy to grow in any fair garden soil. A free bloomer, bearing flowers from summer until frost. No. 1045. Pkt. 10c; 3 for 25c.

Japanese Sunflower

Gaillardia—Flowered or Red Sunflower—4 to 8 ft. Some flowers of rich chestnut red color, others tipped with yellow and others slightly washed with red. The flowers vary from a few inches to nearly a foot in diameter and are of good form, usually having a small disc, and often two rows of long, slightly curled rays. Immense showy flowers suitable for shrubberies, woodlands, wild gardens and sub-tropical gardening. Excellent for cutting. No. 1090. Pkt 10c; 3 Pkts 25c.

Tobacco Plant

A stately plant grows from 5 to 8 ft. high. Plant any time of the year in boxes in the house, when four inches high transplant to pots or the garden. From one packet of seeds you can raise 30 lbs. of fine smoking tobacco. From the seed they extract oil that stops a toothache. A few planted among other flowers keeps destructive bugs away. No. 1087. Pkt. 10c; 3 Pkts. 25c.

Weather Plant

Has created quite a sensation. If the leaves stand upward the sky will be cloudless. If they stand out straight, changeable weather is indicated. When the leaves hang downward, rain may be expected. Bright yellow flowers, followed by crimson pods used for making beads, etc. No. 1156. Pkt. 10c.

Annual Poppies

They flower in a few weeks and make a gorgeous show of brilliant colors. Successive sowing will keep your garden in poppies all summer. Beautiful strong colors and pastel shades. Double mixed—Many varieties and colors, beautiful double flowers.

No. 941. Pkt. 5c; ¼ oz. 20c.

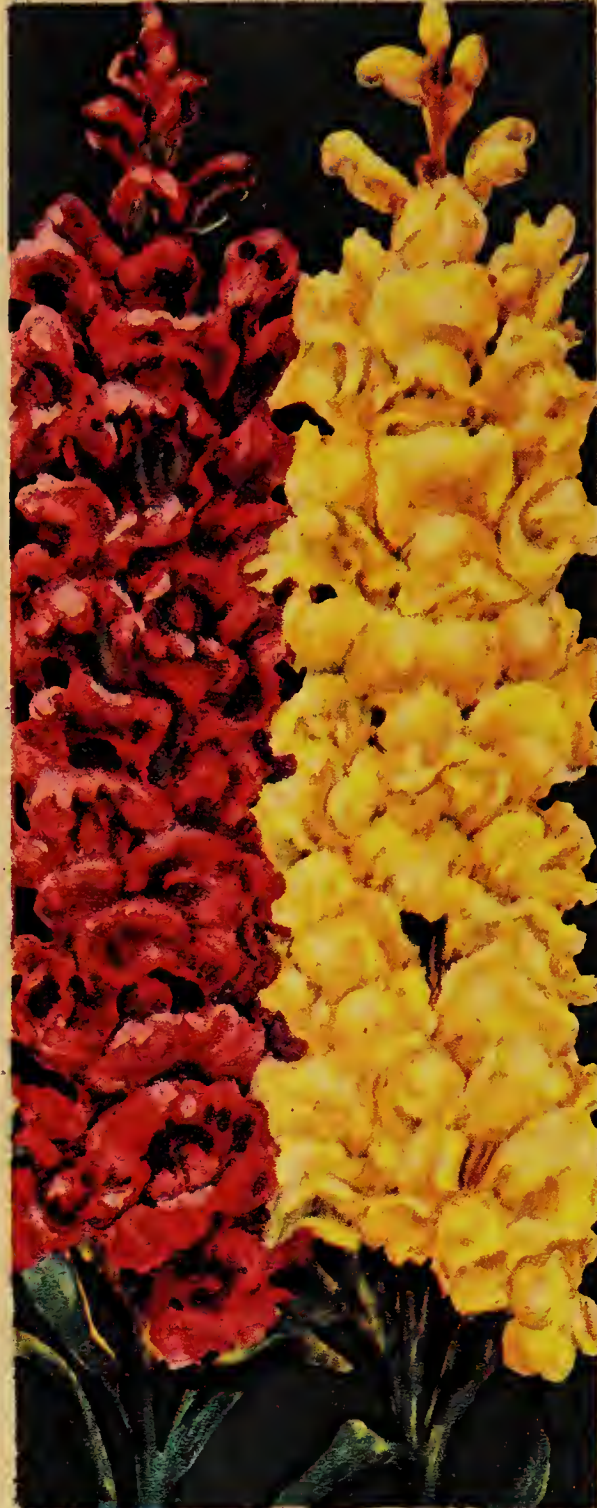

Oriental Hybrida Splendens. This new class resembles the true orientals, marvelous forms and strong color range.

No. 952. Pkt. 10c; ¼ oz. 30c.

Chinese Wool Flower

Plants grow to three feet high, the bloom starting early with a central head, round and globular, which often reaches the immense size of two feet in circumference. Scores of branches are thrown out, each bearing a ball of scarlet-wool. All of these branches support numerous laterals with small heads of bloom mixed with fresh green foliage, so that a plant looks like an immense bouquet splendidly arranged and set in the ground. No. 1154. Pkt. 10c; 3 Pkts. 25c.

Giant Snapdragons

Winner of certificate of honor in the 1935 all selections, this fine Snapdragon is a creation of the University of California. Extensive trials were run both at Davis, California and at Guadalupe over a period of many years. The results produced were marvelous, colors are perfect and 75% of the plants rust proof. The latest development in a magnificent flower that is due for tremendous popularity. We are very proud to be able to offer this carefully selected mixture, and are enthusiastic over the future popularity of this new creation, so much that it is the best Snapdragon we are offering this season. If you are going to plant Snapdragon then plant the best. No. 1197. Pkt. 15c; 2 Pkts. 25c.

Large Flowering Double Portulaca

Rose Moss

One of the showiest of the low growing annuals, for gorgeous coloring nothing can excel them. Their bright, richly colored flowers of scarlet, crimson, white and yellow and many other colors and shades make them ideal for massing in beds, borders or sowing broadcast over sunny banks, etc. Do well in the poorest soil, during a dry season when everything else looks sad these little fellows stand out and seem to enjoy it. The flowers when in bloom appear as a beautiful floral carpet. Murvon's Special Mixture No. 1212 Pkt. 10c; 3 Pkts. 25c.

Swiss Giant Pansies

They surpass anything ever seen among Pansies. The flowers are of great substance, gigantic in size with a soft beautiful velvety texture. The rare new colors and shades ranging from deep purple, violet, blue, sulphur yellow, maroon, beautifully blotched and frilled far surpasses anything ever seen in the pansy family. Plants are very compact, strong and bushy with long stiff stems, the flowers literally covering the plants. We consider our Swiss plant mixture the supreme mixture of all time. It is made up of carefully selected seed from named sorts.

No. 1112. Pkt. 15c; 3 Pkts. 25c.

MURVON'S GIANT FANCY PANSIES— A fine quality of Pansy seed not quite as large as Swiss Giants but an excellent mixture of the named sorts that compare with the best. A splendid mixture for beds and borders in a wide range of color.

No. 1111. Pkt. 10c; 3 Pkts. 25c.

Salpiglossis

Painted Tongue

Judged the most popular flower in the horticultural garden at the Century of Progress, Chicago, 1934. One of the easiest annuals to grow, rich in deep color tones rarely seen in any other flowers. The blossoms are tube shape much like a petunia. Each flower is veined with a glint of gold, and it is the only flower to our knowledge possessing this odd characteristic. The Salpiglossis is deservedly known as the orchid of hardy annuals. Very easily grown and blooms until frost. Mixed colors.

No. 1021. Pkt. 10c; 3 Pkts. 25c.

Rudbeckia

My Joy

A new striking addition to the annual Rudbeckia. Immense flowers measuring over five inches in diameter, with a rather small cone of an intense bright golden yellow; grows about 2 ft. high and blooms profusely from early summer until late in the fall. A new creation in Rudbeckias. Easily grown from seed, long stiff stems making them ideal for cutting.

No. 1188. Pkt. 10c; 3 Pkts. 25c.

Salvia

Scarlet Sage

Scarlet Salvia the most brilliant red flower of our gardens, producing handsome plants of a branching, bushlike growth, bearing a mass of gorgeous scarlet flowers. Highly valued for beds, borders, window boxes and pots.

Salvia Splenden. The most popular variety 2 to 3 ft. Freest and most continuous bloomer. Large bright scarlet flowers. No. 993. Pkt. 10c; 3 Pkts. 25c.

Fire Ball. 18 in. a very compact bushy plant immense quantities of spikes filled with scarlet flowers.

No. 940. Pkt. 10c; 3 Pkts. 25c.

Tom Thumb Zinnias

Miniature Zinnias, a real novelty. By growing some Tom Thumbs also some of our double giants you will have both the smallest and largest Zinnias in existence. They are delightful little babies only 8 in. high, well formed double flowers 1 to 1½ in. across in gorgeous colors of red, orange, pink, rose and yellow. Plants are very compact. Grow some in the indoors in pots, you will be surprised how well they do in the house, they make an ideal house plant.

No. 939. Pkt. 10c; 3 Pkts. 25c.

Ten Weeks Stocks

Fine for bedding or pot culture. Magnificent flowers in 10 weeks from planting seed. For brilliancy of color, delightful fragrance, profusion and duration of bloom this delightful annual is without a peer. The immense rosette blossoms in soft colors of an exceptional tone range are borne on strong spikes 12 to 15 in. tall. Large Flowering 10 weeks stocks choice double mixture.

No. 1235. Pkt. 10c; 3 Pkts. 25c.

Sweet William

Seed sown in the spring will bloom throughout the summer until fall. Our choice mixture includes many beautiful colors and mottled shades such as are found in the perennial types. It should be in every garden, is very easy to grow and if given some protection, in mild localities will continue flowering each year. Grows 15 in. tall.

No. 1168. Pkt. 10c; 3 Pkts. 25c.

Murvon's Beautiful Everlasting Flowers

Everlasting Strawflower

Double Improved

This splendid flower is an ornament when growing and is especially prized for winter decoration. Very easy to grow, useful for winter decoration. A bouquet of these delightful flowers make a charming gift for your friends during the winter months. Cut before they are fully expanded, tie in bunches and hang up in a warm, dry room. They dry in about ten days.

No. 1157. Pkt. 10c; 3 Pkts! 25c.

Lunaria

Honesty

A lovely biennial. Will bloom the first year if seed is started early in the spring. It is sweet-scented and has beautiful stock-like purple flowers, these are followed by large round seed-pods. Dry them out in the fall by hanging in a cool cellar or room. They make very decorative sprays for vases. No. 1219.

Pkt. 5c; 1/8 oz. 25c.

Acroclinium Graceful, daisy-like flowers, cut them when in the bud state. Blooms in 6 weeks from seed. Can be dried for winter bouquets. Beautiful mixed assorted shades. No. 937. Pkt. 10c.

Statice

Sea Lavender

Also called Sea Pink, is extremely showy, with large clusters of blooms carried on graceful stems. The plants grow easily from seed in almost any fair soil. The flowers may be cut and treated like everlastings drying them in a cool dry room. A splendid decorative flower for the home during the winter months. Colors, rose, white, deep blue, yellow and purple. Mixed seed. No. 1218. Pkt. 5c; 1/4 oz. 25c

Globe Amaranth

Gomphrena, a showy everlasting. A fine array of mixed colors, white, pink, red, orange and many shades. Another everlasting that you can enjoy for months. Delightful flower heads shaped not unlike a clover, an unusual and attractive plant in the house, for vases, bowls and any kind of interior decoration.

No. 936. Pkt. 10c; 3 Pkts. 25c.

Mixed Everlastings

A wonderful mixture of everlastings including strawflowers in 9 colors and different shades. Lunaria, Statice, Acroclinium, and Globe Amaranth. This is a special mixture carefully blended so that you may have plenty of decorative plants for the winter months. Very effective forms and colors. No. 938. Pkt. 10c; 3 Pkts. 25c.

Giant Double Dahlia - Flowered Zinnias

Giant
Dahlia
Flowered

We are listing only those Zinnias we consider to be the very best, in a wide color range, of our Giant Double Flowered type. Seed may be planted in the early spring any time up to July. You can be quite sure of excellent results with these mammoth flowering types.

Murvon's Zinnias are grown with the utmost care. They are the product of carefully selected seed stock. They have proven themselves a universal favorite. Very easily grown, require no special attention and succeed in any fair soil. Grow very quickly from seed and produce gorgeous colored flowers in the garden all summer.

LUMINOSA—Charming bright deep pink with a light suffusion of salmon. No. 929. Pkt. 10c; 3 Pkts. 25c.

DREAM—Lavender turning to purple. of unparalleled beauty and mammoth size. No. 930. Pkt. 10c; 3 Pkts. 25c.

PURPLE PRINCE—A truly regal flower of a rich deep purple shade. No. 931. Pkt. 10c; 3 Pkts. 25c.

SCARLET FLAME—The brightest and most dazzling scarlet you ever saw, magnificent.

No. 932. Pkt. 10c; 3 Pkts. 25c.

GOLDEN DAWN—The best among all the yellows, very attractive, almost an orange shade.

No. 933. Pkt. 10c; 3 Pkts. 25c.

MURVON'S GIANT DAHLIA FLOWERED MIXTURE—Not just an ordinary mixture, but a mixture made up of the very finest and choicest of the named sorts. All the above separate colors are included with many other shades grown as separate colors. Mixed No. 934. Pkt. 10c; 3 Pkts. 25c.

Cut And Come Again Zinnias

The small flowered Zinnias are rapidly coming to the front, every year increasing in popularity. Excellent for border and beds during the hot summer months. Fine for pot plants and cut flowers. The small flowered types while they have not the size of the giants, bloom in much greater profusion, standing well above the foliage, presenting a perfect mass of color. Rose, red, orange, scarlet, gold, white, violet, purple, salmon rose, and other colors and shades. We feel perfectly safe to say our mixture of Zinnias will eclipse any strain offered by any other house. It will be a source of delight throughout the summer.

No. 935. Pkt. 10c; 3 Pkts. 25c.

Murvon's Practical Garden Book

A practical book in plain language for the amateur. A real help in the growing of flowers, fruits, vegetables, bulbs and shrubs. How to control insects. Time for planting. Preparation of soil. Fertilizers, insecticides, etc. How to construct a hotbed. List of easily raised house plants, their care and attention. How to make a fine lawn. A 64 page book full of valuable information. Postpaid 25c.

Desirable Climbing Vines and Flowers

Balloon Vine
Cardiospermum

A graceful and ornamental annual climber very fast growing. Has dainty white blossoms followed by inflated white seed vessels which look like little balloons. It grows to a height of 12 feet and will succeed in any average garden soil. No. 1202. Pkt. 10c; 3 Pkts. 25c.

Trumpet Vine

A fine, tall robust climber with immense flowers 8 inches long and 5 inches across, extremely rich in color, lasting a long time in the summer. It is a very rapid grower and one of the finest of the climbers for covering unsightly places, stumps, old barns, or wherever a showy flowering vine is desired.

No. 1210. Pkt. 10c; 3 Pkts. 25c.

Passion Flower

Grows 15 ft. A beautiful vine for porches or windows. Few effects are more charming than this beautiful flowering vine. The flowers are suffused with rose and the blossoms borne quite freely. Handsome rich green foliage, a splendid summer flowering vine.

No. 1085. Pkt. 10c; 3 Pkts. 25c.

Boston Ivy From Seed

Grow this fine hardy climber from seed. Easily grown it clings readily to brick or stone, etc. Seeds are slow to germinate but once started make quick growth. Beautiful dark green 3 lobed leaves.

No. 928. Pkt. 10c; 3 for 25c.

Fast Growing Kudzu Vine

A Japanese climbing vine with large leaves and fragrant wisteria-like flowers. It will climb 25 to 30 feet in a season. It is undoubtedly one of the best vines for quick results, and we have found it to be very popular among our customers.

No. 1048—Pkt. 10c; 3 Pkts. 25c.

Japanese Moonvine

20 ft. Beautiful rapid annual climbers. Foliage very dense and in some kinds, of remarkable shape. The flowers in their wide range of delicate coloring are poised on slender stems. Many of the sorts open only when the sun rises, others when the sun sets. Some are fragrant. Seeds should be soaked in warm water for 24 hours before sowing to assist rapid germination.

No. 1099. Pkt. 10c.

Charming Wisteria

Undoubtedly one of the finest climbing vines, that are so well known. Of luxuriant and rapid growth, 15 to 20 ft. in a season. Its clear foliage and immense panicles of fragrant flowers borne in great profusion make it one of the most charming climbers.

No. 1206. Pkt. 10c; 3 for 25c.

Cardinal Climber

Grows 15 ft. The vines are thickly starred with small, brilliant, fiery red flowers of the morning glory type. A desirable plant for small ornamental trellises or it may be grown on wire supports. Very useful for porch or window boxes to grow around porch columns or windows. No. 1204. Pkt. 10c; 3 Pkts. 25c.

Cobaea Scandens

A fast growing vine with a great deal of charm. Grows 10 to 20 ft. in one season. Flowers are light green, changing to rosy purple. Beautiful bell shaped flowers. A splendid vine very easily grown. No. 927. Pkt. 10c; 3 Pkts. 25c.

Morning Glories

The colors run from snow white through all possible shades of blue and red from palest pink to darkest reds and purple. Flowers are streaked, mottled and bordered in wonderful fashion. The leaves are also very handsome; ivy-like and heartshaped, some are rich green, while others are streaked and marbled with white or yellow. No. 1124—Pkt. 10c; 3 Pkts. 25c.

Murvons Hardy Perennial Flower Seeds

Perennials are herbaceous plants that bloom from seed the second year. During the winter months the top growth dies down and grows up again the following spring. Once perennials are started in the home grounds, every year thereafter, you may

be assured of a wealth of gorgeous and delightful flowers, blooming freely during the spring and summer months to late in the fall.

Aquilegia
Columbine

Attractive hardy perennial of easy culture, plants grow 2 to 2½ ft tall, providing pretty flowers in great abundance. The plants will self-sow and continue their beauty from year to year. If seed is sown in the early spring they will often bloom the same season.

NEW LONG SPURRED HYBRIDS—The flowers are very large and showy, with many new and bright colors a choice mixture. No. 1172. Pkt. 10c; 3 Pkts. 25c.

Hardy Carnation
A Distinct Giant Strain

Our hardy Carnations are giants in size, excellent bloomers in the garden. A distinct strain of Carnation with very large double flowers of finest texture. Blooms within 5 months of sowing seed and continues to bloom throughout the summer. The plants are of robust, erect growing habit and very free blooming. About 90% are double. An excellent select mixture of fine named sorts. Chabaud's, Early Perpetual, Giant Flowering, Improved. No. 1169. Pkt. 10c; 3 Pkts. 25c.

Anemone
(Wind Flower)

A very showy hardy perennial in various shades of blue, white, red, rose mahogany and many other colors. A splendid flower for border decoration, also very attractive flowers for cutting. Some will flower very early in the year, others will flower all during the summer until fall. Our choice mixture of hybrids will produce large beautiful flowers in a charming color range. Hybrid Mixed.

No. 1229. Pkt. 10c; 3 Pkts. 25c.

Giant Scabiosas

Pincushion Flower Improved

Handsome border plant, a free bloomer, producing plenty of large flowers for bouquets, Scabiosa does well in widely different kinds of soil and continues in flower from midsummer until fall.

Blue Cockade, New—An outstanding novelty in a pure deep azure blue. Far ahead of any other variety on account of its depth of color. A free flowering, long stemmed type excellent for cutting.

No. 908. Pkt. 10c; 3 Pkts. 25c.

Double Choice Mixed—Carefully selected, and a wide color range of red, pink, blue, yellow, rose, white, etc. Not just an ordinary mixture but made up of named sorts.

No. 1198. Pkt. 10c; 3 Pkts. 25c.

Campanula
Canterberry Bell

Large handsome bell shaped flowers are produced freely during June and July. Compact habit. They come in white and different shades of pink and blue. Of earliest culture in any fair soil. Extremely showy in shrubberies, borders, and for group planting. A delightful acquisition to the flower garden.

Cup and Saucer—2½ ft. tall large bell shaped flowers 3 in. long, saucers 3 to 4 in. across. No. 907. Pkt. 10c; 3 Pkts. 25c. **Peach Bells**—One of the finest. Flowers large and medium blue.

No. 906. Pkt. 10c; 3 Pkts. 25c.

Choice Mixed—Blue, pink and white flowers in many shades. No. 1007. Pkt. 10c; 3 Pkts. 25c.

Chinese Lantern Plant

Makes a dense bush about 2 ft. high. An unusually striking plant, very easily grown in any ordinary garden soil. The attractive balloon-like pods literally cover the plant, and are at first a delicate green, which as the plant matures turn to a bright showy red and resemble paper balloons. These may easily be dried for winter decoration. A very delightful plant either for the house or garden, maintaining its charm well during the winter months. No. 1061. Pkt. 10c.

Hardy Phlox

Very easily grown from seed. Thrives in almost any kind of soil. A light rich soil, however, will give the maximum results. Seed should be sown in the open ground as soon as danger of frost is past. The Phloxes are the showiest — and most easily raised of all perennials. We know of nothing which produces such a continuous supply of the most attractive flowers in such a marvelous array of colors, grows 3 ft. tall. No. 999. Pkt. Mixed Colors. 10c; 3 Pkts. 25c.

Sweet William

(Dianthus Barbatus)

A well known, free-flowering hardy perennial, producing a splendid effect in beds and borders with their rich and varied flowers. Fine for cut flowers. It is much better to raise new, vigorous young plants from seed every other season than to divide the old plants. Height 1½ feet.

Murvon's Sweet William Mixture. There are many varieties of Sweet William. We have taken the seed only from the very choicest plants, carefully selected the seed for beauty, size, and color range, of red, crimson, pink, scarlet, copper red, many colors, some with a white eye. No. 904. Pkt. 10c; 3 Pkts. 25c; ¼ oz. 35c.

New Double Hollyhocks

The flowers are gracefully waved and fringed, gorgeous colors hitherto unknown in Hollyhocks. Immense flowers, double and semi-double, come on strong stems. In flower 2 weeks ahead of all others. They are easy to grow, blooming from July until September. 5 to 6 ft. tall. Fine colors, crimson, pink, scarlet, maroon, yellow, rose, carmine, violet and many other colors and shades.

Triumph Double Mixed — in all the above gorgeous well-balanced colors. No. 1209. Pkt. 10c; 3 Pkts. 25c.

Single Mixed. Gorgeous bright colors magnificent plants 8 ft. tall. No. 905. Pkt. 10c;

Perennial Sweet Peas

Very desirable as they are in full bloom in the spring before the other Peas have begun to flower. They are perennials, come up again each year, bloom throughout the summer and bear magnificent clusters of pink, white and rose flowers. As they grow 8 to 10 feet high, they are just the thing for growing around porches and for arbors, trellis screens, fences, etc. They are continually in bloom, excellent for garden or home decoration. Mixed Colors. No. 1015. Pkt. 10c; 3 Pkts. 25c; ½ oz. 35c.

Delphinium

Murvon's Delphiniums are hardy, vigorous, free blooming, beautiful and stately, rich and varied in colors. They are indispensable both for the garden and for cut flowers. A few plantings of Delphiniums will put color and charm in your home gardens.

Mammoth Mixed unusually large, massive double flower spikes, a gorgeous range of colors in all shades. No. 1186. Pkt. 10c; 3 Pkts. 25c.

Delphinium Chinese. Blooms the first year from seed if sown early. Flowers from June to September a splendid flower 3 ft. tall. Mixed. No. 127. Pkt. 10c; 3 Pkts. 25c.

Oriental Poppies

Very showy and conspicuous. Huge, mighty colored flowers borne profusely during May and June. They grow 3 ft. tall. Dazzling in the beauty they stand entirely by themselves either in the garden or the house. Mixed Shades. Brilliant beauties of scarlet, orange, salmon and fiery red. No. 885. Pkt. 10c; 3 Pkts. 25c; ¼ oz. 45c.

Iceland Poppies. Charming tufted plants. An improved strain 12 in. tall, gorgeous blooms on their wiry stems. Bloom the first year from seed. No. 1114 Pkt. 10c; 3 Pkts. 25c; ¼ oz. 35.

Digitalis

Stately spikes of blossoms 6 to 7 ft. high. Half the spike is completely covered with bell shaped flowers. Splendid for a background. Striking colors ranging from white to deep rose, many attractively mottled with crimson or chocolate. Of the easiest culture in any fair soil.

No. 1071. Pkt. 5c; $\frac{1}{8}$ oz. 25c.

Iris Seed

This is a most interesting seed to grow. You may hit upon something entirely new and valuable from the planting of one package of seed. Many interesting forms and shapes, some of them will be the same as the illustration and again others will be entirely different. Fine mixture of colors, bloom the second year from seed. No. 1033. Pkt. 10c; 3 Pkts. 25c.

Trollius Globe Flower

A very attractive early spring and summer flowering plant. Splendid for moist, partially shaded places. The flowers are a beautiful orange and golden yellow with very fine light green leaves, excellent for cutting. They grow from 2 to 3 ft. tall and make with their vivid colors a gorgeous showing in the perennial garden. No. 922. Pkt. 15c; 2 Pkts. 25c.

Basket of Gold

Basket of Gold—Grows one foot high, greatly prized for its masses of golden yellow blossoms. A bed of them in the center of a lawn makes a beautiful contrast and will be noticed more than any other plant in the garden. Very showy and ornamental and one that is sure to please.

No. 1019. Pkt. 10c;
3 Pkts. 25c.

Shamrock

This is the National Emblem of Ireland. is easily raised from seed and will grow in practically any soil. The seed we offer is imported by us directly from Ireland and we guarantee it to be the real shamrock. Nothing will be appreciated more by your friends on St. Patrick Day than a gift of real shamrock.

No. 1141. Pkt. 10c.

Pyrethrum

A fine, hardy perennial with Tansy-like foliage and large Daisy-like flowers ranging from white to red, with deep yellow centers. Blooms both in early summer and late fall. Single, semi-double and double flowers mixed. No. 1083. Pkt. 10c.

Geum

Beautiful branching plant 2 ft. high. Flowers are double and semi-double, gorgeous colors of scarlet, orange and deep yellow, free flowering bearing profusely throughout the entire summer. They produce a wealth of attractive flowers that are excellent for cutting. Choice mixed seed. No. 921. Pkt. 10c; 3 Pkts. 25c.

Giant Shasta Daisies

KING EDWARD—3 ft. July-September. The largest of all daisies, flowers frequently measuring more than 5 inches across. An improvement over the common Shasta Daisy, and will stand the winter where the old variety freezes out. The flowers are pure white, with long stems; a beautiful cut flower, remaining in good condition a week or more.

No. 1231. Pkt. 5c; $\frac{1}{16}$ oz. 25c.

Spanish Bayonet

A single panicle of this charming plant often contains as many as 300 florets. It is a very tall and stately growing plant, having long swordlike foliage and immense stems of creamy white flowers. One of the grandest evergreen plants for the lawn or as a background for your flower garden.

No. 1187. Pk. 10c; 3 Pks. 25c.

Wild Cucumber

A very fast growing climber. A remarkably pretty vine with bright green foliage, thickly dotted with pretty, white, fragrant flowers, followed by an abundance of ornamental prickly seed pods. Excellent for trellis, porches, etc. Sown on banks it will act as a soil binder. A splendid climber. No. 1081. Pkt. 10c; 3 Pkts. 25c.

Catnip or Catmint

This plant is good for many purposes. One or two plants in a pot will supply pussy all right. It is a CURE-ALL for cat diseases. Tea made from the dried leaves is good for colds and indigestion. Bee raisers plant fields of catnip, as there is more honey in a blossom of catnip than in any other flower. No. 1052. Pkt. 10c; 3 Pkts. 25c.

Physostegia

Make elegant bush plants, and grow to a height of 4 to 5 feet. Do extremely well in a cool situation in a rich light soil. They bear large spikes, pretty tubular flowers of a delicate pink shade from July to September. A useful flower both for the garden and for cutting, will make a very valuable addition to your flower garden.

No. 1205. Pkt. 10c;
3 Pkts. 25c.

Bellis

Double Daisy

An old favorite that we have greatly improved, both as to size of blooms and color range. A charming plant for both house or garden and will stand the winter very well with a little protection. Blooms from early spring until late summer. Giant blooms in many gorgeous shades of white, red, pink and rose. No. 1062. Pkt. 10c; 3 Pkts. 25c.

Freesias

They make very desirable and charming house plants and produce a profusion of flowers of a delicious fragrance. The seed should be sown in flats or boxes and transplanted after the bulb has formed. They bloom the first year from seed usually in about six months from the time the seed is sown.

Ragioneri Hybrids. Unique colorings and shadings, delicate fragrance. Each spike usually carries 7 to 9 flowers. Selected seed. No. 1070. Pkt. 10c; 3 Pkts. 25c.

Platycodon

Here is one of our best blue hardy perennials. Grows 2 to 3 feet high. It is one of the best for general planting. Very free flowering, producing showy flowers all thru the season. Very interesting and striking. Easily grown. Seed sown in April will bloom in August. The flowers are star shaped, 2 or 3 inches in diameter. If the seed is started early, inside, it will bloom constantly from July until late September. No. 1215. Pkt. 10c; 3 Pkts. 25c.

Japanese Chrysanthemum

Belongs to the Shasta Daisy family, a new white giant with blooms about 5 inches across beautiful fringe-like petals. One of the finest among the newer flowers, remaining in flower fully 3 months. The beautiful flowers on long strong stems make a splendid showing either in the garden or the house. An excellent flower for cutting. For massive bloom, ease of culture and certainty to flower, there is no plant that will surpass them. This is one of the finest of the new perennials. Seed is choice carefully selected.

No. 1234. Pkt. 20c.

Tritoma

Red Hot Poker

Early Hybrids the finest of all Tritomas. The dazzling scarlet flowers tinged with deep orange measuring 12 to 15 in. long by 4 inches in diameter, make a striking show, surpassing the finest Canna for attractiveness from 3 to 4 ft. and bloom from August to October. No. 923. Pkt. 10c.

Hibiscus

Large growing tropical shrubs with very glossy foliage. The plants, under the hottest sun, produces enormous flowers in great numbers and make noble specimens. They can be grown in tubs and kept for years. The blooms average five or six inches in diameter, and are gorgeously colored. The plants can be wintered over in a warm, dry cellar. The Peachblow is one of the finest plant novelties offered in recent years; flowers are about six inches in diameter; charming; rich, clear, pink color, with a small, deep crimson center; entirely new and most beautiful shade. No. 1181—Pkt. of Seeds 10c.

Coreopsis GRANDIFLORA.—The long-lasting flowers are brilliant golden yellow., measuring 3 inches and over in diameter, and are borne on stalks 15 to 18 inches in length. Although a hardy perennial, flowers the same season from seed sown early. Compact, bushy plants, 2 feet high, blooming abundantly during summer and fall. No. 924. Pkt. 5c.

Hyacinthus Candicans

Bears 20 to 30 white, pendent, bell-shaped flowers on Stalks 3 to 4 feet high. Blooms early and till late Fall. A really beautiful and stately plant. Anyone who has never had the Hyacinthus Candicans before, after they try them once will never be without them. They have never failed to please. They are perfectly hardy and have fine tall spikes of pure white pendent, fragrant flowers with yucca-like foliage. A very desirable plant of easy culture. No. 995—Pkt. 10c.

The Regal Lily

It is absolutely hardy, and is excellent for forcing. It has been predicted that this will become the Easter Lily of the future. The flowers are white, slightly suffused with pink, with a beautiful shade of canary yellow at the center, and extending part way up the trumpet. It is delightfully perfumed, reminding one of the jasmine, and lacking the heavy oppressive odor of most lilies. Blooms out of doors early in July, and seeding bulbs will flower the second year. Do well in any fair soil with good drainage. No. 1076. Pkt. 10c; 3 Pkts. 25c.

Murvon's Gorgeous Blue Ribbon Flowers

Giant Stocks

Double Perpetual

(See illustration)—A magnificent strain of recent introduction. The much-branched plants are 2 feet tall and especially popular for indoor growing (for which seed should be sown from July to September), otherwise start in February or March for summer blossoms. Large clusters of immense, double flowers. Our Stocks are grown with great care, and our strains are really Extra Double. Both in growing habit and high percentage of Double they are unexcelled. Mixed All Colors.

No. 893. Pkt. 10c; $\frac{1}{8}$ oz. 40c.

Godetia

Grandiflora

New Tall Rosy Morn

(See illustration)—With their brightly colored, satiny textured, wide awake flowers from June to October. Godetias enrich any annual border—or any window garden if grown in pots. They will bloom in shade that would discourage most plants, and prefer a rather thin soil. Set out or thin to stand a foot apart to prevent "leggy" plants. An excellent for cutting variety.

No. 892. Pkt. 10c; 3 Pkts. 25c; $\frac{1}{2}$ oz. 40c.

Shirley Poppies

A Showy Annual

These lovely Annual Shirley Poppies give a delightful array of charming bright colors and pastel shades in the garden. The color range is complete with varied hues of pink, salmon pink, white and deep scarlet. The flowers are single, semi-double, and double. The robust plants grow about 18 inches tall, the gorgeous blooms being carried on strong slender stems. Showy in the garden and excellent for cut flowers.

No. 942. Pkt. 10c; 3 Pkts. 25c.

Zinnia

Curled and Crested

This fine new type has small centers and more loosely placed petals. The size of the flower has been notably increased over the Giant Show type. Moreover, their colors are softer and more pleasing, being characterized by blended shades and pastel effects which with the slightly reflexed and closely overlapping petals, give the whole flower the appearance of a fine satin cushion.

No. 890. Pkt. 10c; 3 for 25c.

New Larkspur

Giant Imperial Blue Bell

A lovely new larkspur in a delightful medium dark blue. The most pleasing blue we have seen in a long while. A vast improvement in this delightful flower. Blossoms are very large and ideal for cut flowers as the flower stems, three to four feet long branch from the base of the plant. The most erect growing, longest stemmed and freest flowering Larkspur we have ever seen. No. 882. Pkt. 10c; 3 Pkts. 25c.

Murvon's Special Blue Ribbon Offer Of Gorgeous Flowers

This collection contains all the gorgeous flowers shown on these two pages. Marvelous colors. Twelve lovely new flowers. No. 870 one pkt each (value \$1.25) 85c

New Double Portulaca

A Tremendous Improvement

Produces over 85% doubles. A marvelous new strain of these delightful, bright, richly colored flowers. One of the best low growing annuals for hot, sunny, sandy places, especially rockeries and banks. Making a charming little house plant. A tremendous improvement over the older single varieties. The result of many years of painstaking care and attention. In our repeated trials we have never failed to count at least 85% doubles.

No. 897. Pkt. 10c; 3 Pkts. 25c.

Improved Annual Phlox

Murvon's Finest Named Sorts

A special blend of twelve named sorts that we prepare for those desiring the very best in the Phloxes. BRILLIANT PINK, SCARLET, PRIMROSE, VIOLET, PINK with gold star, DARK RUBY, LILAC, GIANT WHITE, APRICOT, SPLENDENS bright red with a showy white eye, PINK with gold star, CARNEA rich array of colors will more than please. No. 886 Pkt. 15c; 2 Pkts. 25c.

Scabiosa

Blue Bonnet

Caucasica—Hardy dependable perennial and easy to grow. Especially handsome in the garden, gorgeous lavender blue flowers that are borne profusely on long strong stems. Excellent for cut flowers and home decoration. The plants grow about two feet tall and are splendid for beds or borders. The great abundance of rich blue fragrant blossoms make it a most useful and decorative plant for the garden.

No. 876. Pkt. 10c; 3 Pkts. 25c; $\frac{1}{8}$ oz. 45c.

Salvia

Blue

A Special Strain

The spikes in this special strain are especially large, and full branching. Extra early, three feet high, lovely deep blue flower effectively displayed against a dark green foliage. An excellent bedding plant, very showy, thriving in moist heat and sunshine. Valuable as cut flowers, the plants bearing brilliant flower spikes from early summer until frost. A gorgeous flower that is easy to grow. No. 887. Pkt. 10c; 3 Pkts. 25c; $\frac{1}{8}$ oz. 80c.

Anemone Corona

Extra Double

St. Brigid Strain. Marvelous double and single flowers in a wonderful array of colors. A handy perennial that should be in every garden. Brilliantly colored large flowers in many shades of scarlet, blue, purple and white. Strong flowers and an excellent flower for cutting. This is an improved strain. A choice mixture of carefully selected seed, in a wide color range, that will completely satisfy the most critical gardener. No. 884. Pkt. 10c; 3 Pkts. 25c.

New Marigold

Mexican Range

A handsome new type and an outstanding novelty. Grows 15 to 18 inches high. It is very free blooming, being more branching and with larger flowers, than the African Marigold. The plants when in bloom are covered with double flowers of the brightest orange. They are extremely easy to grow and bloom profusely from midsummer until the first light frost. Excellent for cut flowers. No. 883. Pkt. 10c; 3 Pkts. 25c.

Giant Flowered Pansies

The flowers are of immense size, often measuring over 3 inches across, and are produced in a magnificent color range, from deepest black, bronze, purple, blue, mahogany, yellow, etc. A beautiful array of colors and shadings. Big—immense Pansies in the greatest combination of colors it is possible to obtain anywhere. If you are desirous of a magnificent display in your garden try this special strain. No. 888. Pkt. 10c; $\frac{1}{8}$ oz. 50c.

SALVIA—Blue

ANEMONE—Corona

MARIGOLD—Mexican Orange

GIANT STOCKS

GODETIA—Rosy Morn

SHIRLEY POPPIES

Beautiful Flowers For The Home

Flowers In The House

Bring happiness and brightness into the home by planting some of these interesting, easy to grow, colorful house plants. They will all develop to perfection in any living room window. They will bring joy and gladness to you during the black winter months.

Abutilon

Flowering Maple

A very charming house plant and suitable for outdoor planting except in the extreme northern states. Handled like Geraniums it grows rapidly from seed, is soon in bloom, and is of the easiest culture. Will flower indoors during the winter and early spring months. The flowers are bell-shaped in many beautiful art shades. Grows 3 ft. tall, and if the seed is started early in the spring the plants will flower the same season. Mixed colors. No. 1228. Pkt. 15c; 2 Pkts. 25c.

Ostrich Plume Fern

Do you know that you can grow this charming fern from seed, well you can and it is quite easy. A fine decorative house fern. Rich green, fine leaved sprays, well branched. The finest and most popular fern for house culture.

No. 925. Pkt. 10c.

Jerusalem Cherry

A very showy house plant, loaded with ornamental "cherries" which turn to glossy scarlet when ripe. Fine for Thanksgiving and Christmas decoration. The bright cherries, which are not edible, will hang on the plant all winter; foliage always green and very ornamental. Start some seed now, and get the plants started, and you will have ideal holiday gifts for your friends. They are a splendid house plant. No. 1211. Pkt. 10c; 3 Pkts. 25c.

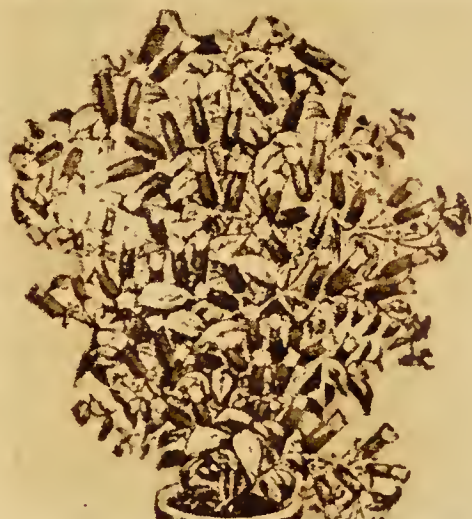

Cigar Plant

Attractive and Odd

Here is a very rare plant, grows pretty red flowers that look like cigars, have a white end to represent the ashes of the cigar. They grow two feet high and make a very nice house plant. We are one of the few seed houses who raise this seed and have sold it for many years with very good success. If you are looking for plants that are a little different from your neighbors try this seed.

No. 1176. Pkt. 10c; 3 Pkts. 25c.

Mimosa or Sensitive Rose

An unusually interesting plant, with beautiful, fluffy, pink-white flowers, about 18 inches tall. The curious part of this plant is, that, if the leaves are touched they immediately fold up, after a short time they reopen. Easily raised from seed. No. 926. Pkt. 10c.

Fuchsia

Lady's Ear Drops

This is the well known greenhouse plant and should be in everybody's home. Grown well from seeds and blooms first year. They are suitable for growing outdoors either in beds, pots, boxes or vases. All flower lovers know what a beautiful flower this is and those that do not should buy one and they would never be without them again. It has glorious blossoms, splendid to behold, borne in such prodigal profusion as to almost completely hide the foliage of the plant. No. 1173—Pkt. 20c.

Cyclamen

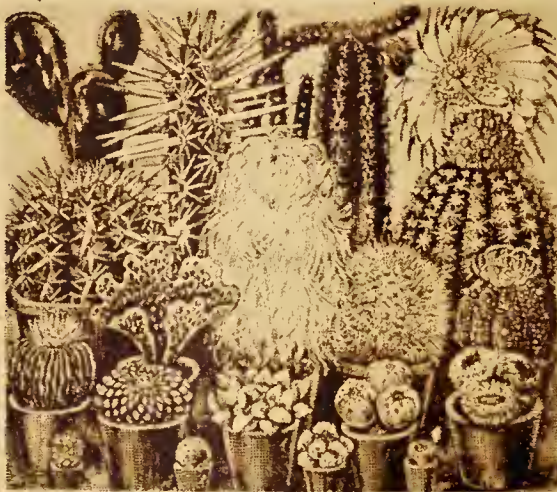

This is a charming house plant with beautiful foliage and rich colored fragrant flowers. Universal favorite for winter and spring blooming. Easily grown from our seed, as we offer a fine strain of large flowered sorts. White, Red, Lilac, Violet, Rose, etc. They have the most interesting variegated foliage, very large and perfect flowers, of the most delicate colors and shades. Our Cyclamen seed is grown for us by a specialist, seed being selected only from plants of superior bloom Gigantum mixed

No. 1050. Pkt. 20c.

Cactus

Cactus make an interesting house plant, odd and curious. Many have beautiful sweet scented blossoms. These odd plants are easily grown, and come in many shapes and sizes. Thrive with little care and endure the dryness and heat of the ordinary room. They live for years, and seem to thrive on neglect. No. 1051. Pkt. 10c; 3 Pkts. 25c.

Geraniums

These grow readily from seed the first year and produce blooming plants the first summer. There is a great deal of pleasure in watching them develop from seed, and there is always the chance of thus securing something new. Our Geranium seed is of an exceptionally choice strain and of high germination. No. 1177. Pkt. 15c; 2 Pkts. 25c.

Weeping Palm

Grown from seed makes a very fine showy Window Palm. Needs no petting to succeed, stands dust and dry air, lack of sunshine does not bother it. It is very ornamental with elegant fan-shaped leaves of a dark rich leathery green. Picturesquely fringed with long thread-like filaments along the segments of the leaves. May be grown in pots or in the open ground. No. 994—Pkt. 10c.

Calceolaria

An interesting and beautiful pot plant. Fine large compact bushes, very showy pouch like flowers, beautifully spotted and tigered, in charming shades of yellow and red. Always greatly admired. A choice strain of Grandiflora Hybrids carefully selected for growing in the house. Mixed Colors. No. 1195 Pkt. 20c.

Brugmansia

A magnificent indoor and garden plant. It blooms in the house in winter, or in the garden in summer. One of the most gorgeous and striking of all blooming plants. Beautiful pure white trumpet shaped flowers as fragrant as Jasmine. Of compact growth, with large tropical leaves. Easily grown from our carefully selected seed, makes a house or porch plant to be proud of. It is most gorgeous either as a pot or garden plant. No. 1213 Pkt. 20c.

Fringed Chinese Primrose

The brightest of all pot plants for growing in the house. Extremely free flowering and showy plants for winter blooming. Do well in a north window, while most flowers require the warm sunshine. Beautiful wide color range of, crimson velvet, carmine-rose, bright red, blue and white. Plant is of compact growth literally covered with large fringed flowers, and large fern leaved foliage. While slow to germinate, makes a fine showing.

No. 1092 Pkt. 20c

Blue Lily of the Nile

Blue Lily of the Nile is a splendid ornamental plant. Bright evergreen foliage spreading to 3 or 4 feet and surmounted with gorgeous spikes of bright blue flowers which remain in bloom for a long period. We have a choice strain of seed saved from carefully selected plants, one of the best and most desirable tub plants for porch or the lawn. We feel sure that you will be well pleased with "Blue Lily." No. 1047 Pkt. 15c; 2 Pkts. 25c.

Shoo-Fly Plant

Shoo-Fly Plant, House—It is said that flies will not stay in a room where it is grown if they can conveniently escape, though what there is about it that repulses them is not clear, as the plant or flower has no odor. Aside from this more remarkable quality it is a beautiful flowering plant, and blooms in a short time (60 days) from seed. It is particularly valuable as a winter bloomer, the blossoms being large, cup-shaped and of a lovely light blue color, with a white center. No. 1020—Pkt. 15c.

Primula Obconica

Remarkable improvements have taken place in this type of primrose. One of the most beautiful of the primulas. it is also the easiest to grow. They germinate freely and quickly and the plants being of a robust nature make rapid growth. We know that primula obconica will more than please you in every way. Colors are very rich and showy and it makes an ideal pot plant for the house. Choice mixed seed.

No. 1217, Pkt. 20c.

Cineraria

The large luxuriant leaves are surmounted by magnificent large flowers of the most brilliant colors. No flower is more showy or effective, and the flowers last in full glory for two or three months. Colors exceedingly rich and velvety, ranging from crimson-black to pure white, through all the shades of crimson and blues, frequently with large white centers or exquisite borders.

Grandiflora Mixed — Large flowering.

No. 1044. Pkt. 25c.

Bird of Paradise

The most magnificent flower ever introduced. The color is a rich golden yellow, it measures 2 1/4 in. across, produced in very large trusses. The most beautiful part of the flower is the long incurved stamens and pistils which are spread out in fan-like form and are of bright crimson color. The foliage is also highly decorative.

No. 1216 Pkt. 10c.

Gloxinia

The grandest flower of all for decoration of windows, veranda or conservatory. The flowers are very large and satin-like and the most beautiful colorings, the leaves are large and curved down often completely concealing the pot they are growing in. They are of easy culture. The seed should be sown in March or April. Our strain is of the finest, producing flowers in a wide color range, mixed.

No. 1066 Pkt. 20c.

Japanese Rose Seed

We have bushes that were grown from Seed that have literally thousands of Roses on them. They are Perfectly Hardy and they can be planted in the open-ground and the frost will not hurt them. In the open we advise for the first year that they be protected by putting a little hay, leaves or litter around. They make an Ideal House Plant until they are about 3 years old. Then they become too large for inside and should be placed in the open.

No. 909 Pkt. 10c. Postpaid.

Choice Summer Flowering Bulbs

We present a choice list of very desirable bulbs for spring planting. They are all easy to grow, and if started as soon as the ground is warm will make a gorgeous display all summer. They should be stored in the cellar during the winter months.

Caladium

(Elephants Ear)

See illustration of a Caladium Esculentum (or Elephant's Ear) raised by one of our customers. One of the most effective and easily grown foliage plants for the lawn or border. Can be used with good effect as a border for tall-growing Cannas when edged with Coleus or other low-growing foliage plants. Will thrive in any ordinary garden soil. No. 3036. Each 15c; 3 for 40c; 6 for 75c.

Calla Lily

AETHIOPICA (Largest and Most Beautiful White Calla). This is the well known White Calla Lily whose chaste waxy beauty has lent itself for generations to typify purity and sacredness.

No. 3049. Each 35c;
3 for \$1.00

ELLIOTTIANA Large yellow bloom; spotted leaf. Flowers very large, rich deep orange-yellow, often 4 to 5 inches across the mouth. No. 3048. Each 35c; 3 for \$1.00

Lilium Regale

This beautiful new Lily is the easiest Lily to grow. The exquisite blending of tints and colors makes it one of the most beautiful of all Lillies. The large, trumpet-shaped flowers are transparent white, with a distinct rich canary yellow throat, and orange stamens. The fragrance is delightful. It blooms for a long season, and is fine for house decorations, lasting for days after being cut. No. 3002. Choice flowering sized bulbs. 30c each; 3 for 85c; 12 for \$2.75.

Gloxinia

This is one of the most interesting as well as the most beautiful flowers in the world, in fact we question if there is another flower with the intensity of color and texture of the bloom. Very easy to grow. Flowers of very large size, many of the petals being beautifully frilled and fringed. Colors rich and varied in beautiful combinations. Plants vigorous, with large leaves and many wonderful flowers showing at one time. No. 3007. 35c each; 3 for \$1.00; 6 for \$1.75.

Fringed or Frilled Begonia

The flowers vary considerably as to form and size, ranging from 2 to 4 and even 6 inches across, with some of the single ones perfectly smooth, while others are fluted or distinctly fringed. The colors are delightfully vivid and distinct. Double Mixed. Many shades of Yellow, white, salmon, rose, scarlet, orange and crimson. No. 3006. Each 30c; 3 for 80c.

Fragrant Tuberoses

One of the best known and most easily grown summer flowering bulbs. Easily recognized by its exquisite fragrance and beautiful flower spikes which are borne on long stems, making it an admirable cut-flower for home decoration. Our Mammoth Excelsior Dwarf Pearl is a special selection made for many years of the most dwarf, double and full flowered spikes and is exceptionally sturdy and dwarf in habit. This "Mammoth strain" is positively the highest type of tuberose. No. 3035. Each 10c; 3 for 20c; 6 for 35c; 12 for 65c.

Lily of the Valley

The Lily of the Valley will thrive and throw up its beautiful modest, fragrant white bells in almost any kind of soil. It will make a carpet of refreshing green, daintily patterned by its clusters of Lily White Flowers. With its broad shiny leaves they make up into beautiful and fragrant bouquets. They spread actively and will soon transform a piece of barren or cheerless ground into a thing of beauty and fragrance. Once planted they will be good for a lifetime, coming up every year, will grow, spread out and bloom beautifully with no care at all. Fine roots 6 for 45c; 1 doz. 75c; 100 \$5.00. Postpaid.

Gold Medal Gladiolus

For years we have specialized on our Gold Medal Mixture. This is a choice collection, carefully made up of the finest varieties. We are continually adding many of the later varieties of the largest flowering types. This selection gives a wonderful range of colors and tints. These will produce a marvelously brilliant showing in your garden. Do not compare this mixture with small bulbs or bulb-lets that will not bloom until the following year. We honestly believe that there is not a better mixture at any price. Choice flowering size bulbs. 12 for 40c; 25 for 75c; 50 for \$1.25; 100 for \$2.00. Postpaid

Fine Healthy Field Grown Roses

We handle the most select varieties of Roses. All are large healthy two year old field grown plants. They are strong northern grown Roses that will be quickly in flower and give the utmost satisfaction when planted.

Talisman

The plant is extremely vigorous and all Summer through to frost it produces an abundance of gorgeous, double blooms that are sweetly fragrant. The bud is long, perfectly formed, the outside of the opening flower petals a bright yellow, good and pink as the flower develops, and as the petals unfold they become bright apricot, gold, deep rose-pink or old rose, the color becoming brighter, as the flowers develop. The plant is a strong grower, with glossy green foliage and free flowering. Each, 50c. Postpaid.

Ulrich Brunner

Hybrid Perpetuals, often called June Roses, are without doubt one of the most popular of all roses. Once established they are strong and hardy growers, and a constant delight in the garden. This glorious rose Ulrich Brummer is without a peer. Very attractive, a rose of beautiful form, brilliant cherry-crimson gradually turning to deep carmine. A vigorous and dependable grower blooming continuously in the open, thru-out the season. Delightfully fragrant. Each 50c. Postpaid.

ETOILE DE FRANCE—Clean red to velvety crimson. Flowers borne on long stems. One of the most charming of red roses. Each 50c. Postpaid.

KAISERIN AUGUSTA VICTORIA—The most popular hardy white rose in existence, blooming continuously. Buds long and pointed. Flowers delicate pure white, with shadings of primrose yellow. Strong plants. Each 50c. Postpaid.

MRS. CHAS. BELL—Flowers are a delicate tone of shell pink. It is a sport of the well known Radiance and has flowers of similar shape but lighter and softer in color. Each 50c. Postpaid.

REV F. PAGE-ROBERTS—The long, pointed buds are coppery red opening to rich golden yellow. Plant has a vigorous branching habit with beautiful foliage. Each 65c. Postpaid.

E. G. HILL—A new Red Rose, originated by Mr. E. G. Hill. Color is a dazzling scarlet shading to deeper red. A fine new red rose. Each 50c. Postpaid.

RED RADIANCE—An even better Rose than its parent, Radiance, bearing big flowers of deep rose-red on strong, individual canes which are freely produced all summer until frost. Each 50c. Postpaid.

President Herbert Hoover

The finest of the new roses. Free flowering. Beautifully pointed buds, large flowers, thick heavy petals, exquisitely fragrant. A remarkable and unusual color combination of cerise-pink, flame, scarlet and yellow. A combination that gives the marvelous large flowers a dazzling effect. Healthy rich green foliage. Strong field grown stock. Thrives everywhere. A splendid grower that will be a perpetual delight in the garden. Each 50c. Postpaid.

Pink Radiance

The blooms are a dazzling brilliant carmine pink, with salmon-pink and yellow shadings at the base of the petals. A gorgeous combination that is hardly equaled by any other rose. Exquisite buds that open into perfectly formed globular flowers with lighter reflex. An ideal rose that continues to produce large blooms throughout the most unfavorable hot weather. A variety that should be in every garden. Dependable in every way. Each 50c. Postpaid.

Magna Charta

A general favorite. Strong vigorous grower, and a profuse bloomer. The flowers retain their lasting qualities for a long period. Very double bright pink, suffused carmine, delightfully perfumed. A dazzling color effect that is a delight to the eye, blooms are truly magnificent at every stage. No finer rose than Magna Charter could possibly be used to decorate the home grounds. An excellent rose that we do not hesitate to highly recommend. Each 50c. Postpaid.

FRAU KARL DRUSCHKI (White American Beauty)—Pure white, large, long pointed buds, perfectly formed. Open flowers are very large, exceedingly double. Each 50c. Postpaid.

PAUL NEYRON—An old favorite which is still deservedly popular. One of the largest of all Roses. Deep rose color, very double and delightfully fragrant. Each, 50c. Postpaid.

AMERICAN PILLAR—A single flowering variety of great beauty. The flowers are of enormous size, three to four inches across, of a lovely shade of apple blossom pink, with a clear white eye and clusters of yellow stamens. Each 50c. Postpaid.

CLIMBING AMERICAN BEAUTY—Same color, size and fragrance as American Beauty, with the addition of the climbing habit. Good foliage and better blooming qualities. Each 50c. Postpaid.

DOROTHY PERKINS—A most beautiful deep pink; the flowers are borne in large clusters of small double blooms and are very sweetly scented, quite first class. Each 50c. Postpaid.

DR. W. VAN FLEET—Hardy, large blooms, delicately perfumed, on extra long, stiff stems. Color a delicate shade of flesh pink, deepening to rosy flesh in the center. Each 50c. Postpaid.

Paul's Scarlet Climber

Expert rose growers agree that this is the best and most valuable climbing red rose for home planting. The full, double, scarlet flowers cover the entire bush in a solid vivid mass of flaming red, making a brilliant display for a long time. The petals do not fade like many climbing roses, but retain their bright color. National Rose Society gold medal and cup for the best Climbing Rose. Each, 50c. Postpaid.

New Vegetable Novelties

New Vegetable Spaghetti

This remarkable vegetable belongs to the cucumber family and produces fruits freely. The smooth creamy white skinned fruits look something like Vegetable Marrow but with more symmetrical oval shape. Measure about 8 in. long by 4 in. in diameter. Pick the fruits when well matured and cook (as whole fruit without cutting or skinning) in boiling water for 20 minutes. Take out and cut as in picture and you have a quantity of stringy spaghetti-like contents which is delicious when seasoned with sauce. Splendid keeping qualities, can be stored until late spring. Growing and cooking directions on each packet. No. 6016. Pkt. 10c; 3 Pkts. 25c

New Wonder Luffa Gourds

A New and Interesting Novelty

Fruits are Edible if cooked in the early stage of growth. Young Fruits of this Giant Luffa grow to an astounding length, sometimes over 10 feet when the vines are trained over a tall trellis so the fruits can hang down as shown in this Photo. When the fruits are disturbed by something during the growing period they start to wind and form many Fantastic Shapes and Sizes. It is a Real Curiosity and Useful Plant. Very interesting to grow. No. 6015. Pkt. 15c; 2 Pkts. 25c. Postpaid.

Mustard Spinach (Tender Green)

A new vegetable of great merit, ready for the table in 3 or 4 weeks after seed is planted. A spinach with a delicious mustard flavor, remains tender even in dry hot weather. The leaves twice the size of Swiss Chard, are mostly used when young. It is an all season plant, resistant to cold weather, insects and blight and a wonderful producer. The leaves are cooked the same as spinach. No. 4109. Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 35c.

Guinea Bean

Extensively advertised as a "bean" but really of the Colocynth family. Grows to enormous size. One often weighing 20 to 25 POUNDS. Sergeant Howard P. Mc-Abee. West Point. N. Y., writes "My Beans now measure 34 inches in length, a single bean weighs more than thirty pounds at the present time". It has caused considerable comment in this section and has been viewed by crowds! Hundreds of testimonials. It may be prepared like squash, but is delicious eating when cut in half, the seed extracted, then stuffed with chopped meat and roasted. No. 5001. Pkt. 10c; 3 Pkts. 25c.

3 Ft. Oriental Radish

A wonderful Oriental vegetable. Of immense size. A pure white Radish with the flesh of a Baldwin apple and as fine a grain. Grow 2 to 3 ft. in length and 5 to 10 lbs. in weight and of a flavor ahead of the best spring radish that ever passed your lips.

This is another of our fine novelty vegetable seeds. The kind that will make your garden different to your next door neighbors. This seed is specially grown for us in Kyoto, Japan, and will grow with perfect success in the United States. Easy to grow and worth while your attention.

No. 6006. Pkt. 10c; 3 Pkts. 25c.

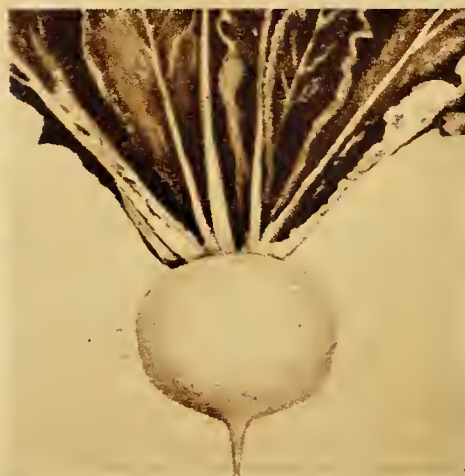

Celery Asparagus

Celery Asparagus or Ivory White Sea Kale is a delicious perennial vegetable which is cultivated somewhat like Asparagus, and is very easily grown. It is ready for use earlier in the spring than Asparagus, and combines the flavor of Asparagus with that of Celery. Its blanched stalks are cooked like Asparagus and the leaves are used as greens.

No. 4058. Pkt. 10c; 3 Pkts. 25c.

Japanese Turnip (Shoigoin)

If you like greens and sweet tender green turnips you can have both by planting this new Japanese variety. Trials have shown it to be superior in many respects to most of the varieties generally cultivated in America. The leaves grow upright, about two feet high when fully developed, but should be cut before they attain full growth. A decided acquisition to both the Turnip and the Greens classes. It produces an abundance of tender delicately flavored leaves and later a full crop of very tender Turnips.

No. 4010. Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 40c.

Hybridized Potato Seed

Seed from the Seed Balls — Headquarters Stock. They are as easy to grow as tomatoes and will produce an endless variety of new kinds. It is from these that all valuable new varieties of potatoes are produced. Growing new and distinct Seedling Potatoes from the Seed-Balls is intensely interesting. They will be the greatest curiosity of your garden. Some may be of immense value and bring you a golden harvest. Every farmer, gardener and bright boy should plant a few packets. You may be one of the lucky ones. Full directions on every packet.

No. 6004. Pkt. 15c; 2 Pkts. 25c.

Dandelion

The Dandelion cultivated as a Spring Green is fast growing in favor. One of the best and most Healthful spring greens. Do not confuse the Cultivated Dandelion with the ordinary kind so common in lawns. This is an Improved. Thick, Broad Leaved plant that is Three Times the size of the wild dandelion. The flowers may be used for Wine.

No. 6003. Pkt. 10c; 3 Pkts. 25c.

Giant Butter Bean

A Record breaking FOOD producer. Comes from the ground in a few days, and grows quickly to a height of two feet. on a strong, sturdy stalk.

This bean produces profusely. We have counted over 100 blossoms on ONE stalk. The pods grow straight out from the stalk and its branches, and while there are only 2 to 4 beans in a pod, the FOOD VALUE IS DOUBLE that of other beans. We have experimented extensively with this bean during the last two years and now offer this delicious vegetable for 10c. a packet, No. 5005 3 pkts. for 25 cts.

Artichoke GREEN GLOBE A delicious vegetable which is cultivated for its large flower-heads, which are cooked like Asparagus. It is considered a delicacy and demands a high price in all better city markets. The plant is a perennial and set in good soil and given slight winter protection of leaves or straw.

No. 4169. Pkt. 10c; 1/2 oz. 30c.

Salsify Mammoth Sandwich Island. An improved type of superior quality and flavor, wholesome and nutritious. Fine when boiled or sliced and fried. Splendid for soups.

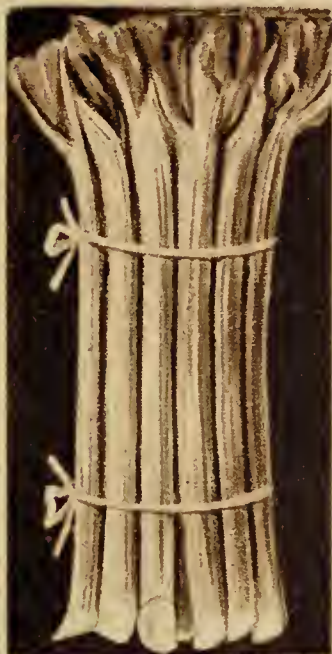

No. 4168. Pkt. 5c; oz. 25c.

Mustard SOUTHERN GIANT CURLED. Is used as a salad or boiled like spinach. Very popular in the south where it is extensively grown. The young tender leaves are best for salads. A packet will sow 30 ft., 1 oz. 100 ft.

No. 4167. Pkt. 5c; oz. 25c.

Rhubarb GIANT VICTORIA. A splendid, improved variety producing large thick stalks of a delicious color and flavor. Rhubarb is strong in mineral elements, either stewed Rhubarb, or pie are an excellent method of balancing the the diet. Healthful and delicious. A fine variety for making Rhubarb wine. It is of easy culture and should be in every garden.

No. 4166. Pkt. 5c; oz. 20c.

Rhubarb Victoria

Strawberry or Husk Tomato

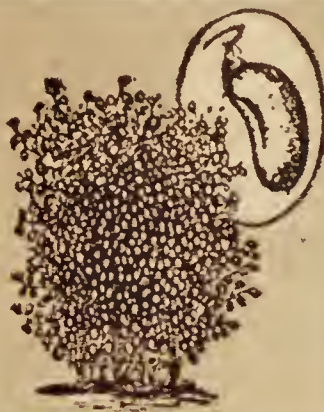

This DELICIOUS little fruit can be raised very easily from seed planted in open ground as soon as the ground is warm. The plants are of DWARF spready growth and very PRODUCTIVE. The fruit is YELLOW and about the size of a STRAWBERRY and is enclosed in a HUSK. It is of a peculiar FLAVOR and often used in preserves. May be eaten like a Tomato and there is no greater DELICACY. A great NOVELTY and very pretty when laden down with its miniature fruit.

No. 6010. Pkt. 10c; 3 for 25c.

Chestnut Bean

This wonderful Bean looks like a gigantic Pea. When boiled it has a flavor like boiled chestnuts, and is one of the most delicious beans grown. Grows in the form of a tall bush, and is completely covered with pods. For soup and turkey stuffing it cannot be surpassed. It is a Spanish Bean, and is known as the "Garbanzo" Bean. No. 6008—Pkt. 10c; 3 Pkts. 25c. Postpaid.

Coffee

Grow your own coffee at an expense of less than one cent per pound. The Domestic Coffee Berry makes a delicious, nourishing drink, to take the place of coffee. It is a pure food drink. The best coffee substitute ever discovered, and thousands pronounce it as good or better than the best coffee. It has a rich, deep brown color. As easily grown as corn or beans, and does well in all soils. Full directions with every packet.

No. 6005. Pkt. 10c; 3 Pkts. 25c.

Almond Nuts

The Ground Almond has a fine flavor, meat is snow-white and covered with thin shell. Grows close to the surface. Very prolific, a single nut yielding from 200 to 300 nuts in a hill. Will do well in any soil. Planted like potatoes and harvested at same time. Grows rapidly and produces immense crops. Try some this year. Sweet and delicious, fine for cakes.

No. 6002. Pkg. 10c; 3 Pkgs. 35c.

Grow This Vine Peach

Ripe Fruit in 80 Days After Seed is Planted

This wonderful Vegetable Peach is the most wonderful of all vegetables. They resemble oranges in color, shape and size, and grow on vines like melons. They present a beautiful and tempting appearance when canned; make delicious preserves and Sweet pickles; and are fine for pies. There is nothing like them. Extremely early, of the easiest culture and very prolific, covering the ground with golden fruit. They grow from the seed in 80 days. A packet of the seed will be sent postpaid for 10c; 3 packages for 25c.

No. 5007.

Murvon's Hardy Vegetable Seeds

Choice Table Beets

Beets are so easy to grow, that a row or two should be in every garden. Grow some for immediate use, also sufficient to put up in jars for the winter, delicious in salads, buttered or pickled. One packet will sow 25 feet, one ounce 100 ft.

Detroit Dark Red An excellent main cropper, a fine home garden beet. Very early, nearly as early as Egyptian. The color is rich dark red, and the shape globular. Fine grained and tender, has a small top. It is free from side or fibrous roots, being always smooth. Is a good keeper, sweet and tender. Makes a good crop in seven weeks. No. 4041. Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 75c; 1 lb. \$1.20.

Crosby's Egyptian A splendid Beet, deep red, sweet, tender and smooth. The most desirable sort of small beet of a delicious flavor. An excellent pickling beet. A very rapid grower ready from seed in 35 to 40 days. No. 4042. Pkt. 10c; 1 oz. 15c; ¼ lb. 40c; ½ lb. 65c; 1 lb. \$1.10.

Early Wonder Has gained wide popularity. Very uniform in growth, the crop may be lifted almost at one time. Matures very rapidly. Medium sized leaves, sweet and free from strings. A fine round deep red beet. No. 4043. Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 65c.

Detroit Dark Red

New Winter-Keeper Beet

Two leading characteristics makes this beet worthy of any gardener's time and space. The uniformly excellent Flavor of its flesh at all stages of development and the remarkable manner in which this quality is preserved during Winter storage. The flesh is sweet and tender at all stages of growth. May be stored in a pit or cellar until spring and when taken from storage will actually cook more tender and sweet than ordinary varieties will when taken from the Garden. One of the finest beets grown. No. 4076. Pkt. 10c; 3 Pkts. 25c; ¼ lb. 35c; 1 lb. \$1.10.

Murvon's Early Improved Blood

An extra early variety. The finest and sweetest beet grown, of excellent flavor. The roots are round but inclined to be a little longer than their diameter. A splendid quick grower that keeps well in storage. Flesh is a deep, dark, blood red, and the color is retained even after cooking, making them a delicious table beet. A rapid grower, it matures in about 45 days from the time the seed is sown, grows 3 to 4 inches in diameter. Our strain is very uniform in shape and color. No. 4195. Pkt. 5c; oz. 15c; ¼ lb. 40c; ½ lb. 30c;

Broccoli

SPROUTING CALABRESE — A delicious variety which resembles Cauliflower, but is of more delicate flavor, having the combined flavor of Cauliflower and Asparagus. It is grown about the same as Cabbage. Simply sow the seed in the open ground in the spring and transplant the plants when large enough. The heads or sprouts when ready to use are deep green. After the central head is removed, the plant produces numerous branch heads which are fully as desirable as the first head produced. A continuous supply may be had for a long time. A choice strain of seed. No. 4039. Pkt. 10c; oz. 50c.

1200 to One Bean

Over 200 pods on a single plant—all well filled, producing over 1,200 beans. Strong, erect plants, bearing pods well up from the ground. Not a snap Bean, but the most productive Winter shell Bean for baking. Plants are very robust, and produce great quantities of pods in clusters, filled with beans of the best quality. They ripen evenly and will mature in about 75 days. No. 4067. Pkt. 10c; ½ lb. 25c; 1 lb. 40c.

Pole Beans

Murvon's Everbearing Bean

The finest flavored snap bean grown. The green pods, seven to ten inches long, are solid, meaty, and crisp. They commence bearing exceedingly early, and if pods are gathered as they mature the vines will continue to bear until killed by the frost.

No. 4034. Pk. 10c; ½ lb. 30c;
1 lb. 55c.

Golden Cluster

We recommend Golden Cluster as the best, yellow, Wax-Podded Pole Bean. The flesh is brittle and of fine quality, pods are 7 to 8 inches long, perfectly straight and flat. Highly praised everywhere, ready for use in about 75 days. No. 4037. Pkt. 10c; ½ lb. 30c; 1 lb. 55c.

Giant Podded Lima

Largest and earliest Pole Lima. Large pods 7 to 8 inches in length, produced freely in clusters of from 4 to 8; extra large beans of a delicious flavor. Grow from 10 to 12 ft. tall.

No. 4194. Pkt. 10c; ½ lb. 30c;
1 lb. 50c.

Kentucky Wonder Wax

A fine extra early Wax Pole Bean, light yellow color, long thick, straight fleshy pods, 8 to 9 in. long. A delicious bean, a heavy yielder, bears a long season. No. 4035. Pkt. 10; ½ lb. 30c; 1 lb. 50c.

Murvon's Everbearing

Murvon's Kidney Wax

Murvon's Bush Beans

To provide for a continuous supply of fresh beans, sow seed every 14 days up to August 10th. One packet will plant 35 ft. 1 lb. 250 ft.

Murvon's Early Wonder Wax

Early Wonder Wax belongs to the oval padded class and grows a strong plant, 18 inches high and 2 feet across. It is well loaded with pods, 5 to 7 inches long; flat, plump, handsome and meaty, of a clear, waxy yellow color. The pods are tender, brittle and of fine texture. The earliest wax-podded bean; ready to pick in 35 or 40 days. Practically rust-proof; a bountiful yielder, bearing for a long season; an ideal bean for the home garden.

No. 4090. Pkt. 10c; ½ lb. 25c; 1 lb. 40c.

Sure Crop Stringless Wax

Handsome rich yellow pods, averaging 6 to 7 inches in length. Very meaty and sweet, and perfectly stringless. The plant is free branching, every branch carrying a heavy crop of magnificent pods. Valuable for its productiveness and disease-resisting qualities. It is classed as an early variety.

No. 4091. Packet 10 cts; ½ lb. 25 cts; 1 lb. 45 cts.

Murvon's Kidney Wax

Generally accepted as the best Wax Bean. Pods are straight, broad, thick and meaty, and entirely stringless. A strong upright grower. A bright, yellow, tender and delicious bean, 6 to 8 inches long.

No. 4193. Pkt. 10c; ½ lb. 25c; 1 lb. 45c.

Early Wonder

Bush Lima Beans

Murvon's Mammoth Bush Lima

The plants are vigorous and productive. The pods are medium green, very large, about five inches long, thick and usually contain four beans, which are unusually thick of largest size and of excellent quality. Seed very large, thick and usually shows a greenish white tings which is generally considered an indication of superior quality. One of the best and most extensively used bush limas for the market as well as home garden.

No. 4038. Pkt. 10c;
3 Pkts. 25c; ½ lb. 30c;
1 lb. 50c.

Fordhook Bush Lima

Has an everbearing habit of growth that permits it to bear all season. It is extremely early. It bears until late frost. The pods are immense in size. It is exceptionally prolific. It is of finest flavor. Vines frequently bear half a hundred pods at one time. The pods are long, wide and thick. Plants are 2½ feet across. Usually bears in clusters of 4 to 8 pods. It is the most popular of the Limas. The best for the home grower.

No. 4040. Pkt. 10c; ½ lb. 30c; 1 lb. 45c.

Bush Beans - Green Pods

Giant Stringless Green Pod

This famous stringless bush bean is the finest of all green-pod bush beans. The plants are medium height and the beans are medium in length, always tender and stringless. The most delicious beans are those that are gathered as soon as possible. Don't wait until they are too large. This bean is a very dependable yielder under all conditions, and always gives satisfaction. Matures in 50 days.

No. 4089. Pkt. 10c; ½ lb. 25c;
1 lb. 45c; 2 lbs. 70c, Postpaid.

Bountiful

This variety is of thrifty growth, very hardy and practically rust proof. Bears continuously for weeks, being the first to give pods to pick in the spring and the last to yield edible pods in the fall. This variety has been known to bear one bushel of pods per 15 foot row. The large green pods are thick, broad, flat, extra long, very uniform in shape, solid, meaty, and of high quality, tender, of delicious flavor and absolutely stringless. Ready for picking in 38 to 42 days.

No. 4087. Pk. 10c; ½ lb. 25c; 1 lb. 40c.

Giant Stringless

Full Measure

Full Measure is decidedly the best round, podded, stringless, dwarf green bean in existence, and on account of its superior quality, it is especially desirable for the home garden. It begins to bear with the second early sorts, the heavy pods producing throughout a long season. Very productive; pods average 6 inches long, fleshy and absolutely stringless.

No. 4088. Pkt. 10c; ½ lb. 25c;
1 lb. 40c.

Yard Long Bean

This is an excellent variety, as well as an interesting curiosity. The vines are rampant growers and produce an enormous crop of long, slender, round pods which are of excellent quality for snap beans. The round pods are from 2 to 4 feet in length, having the thickness of a lead pencil. Very productive, tender and of fine flavor.

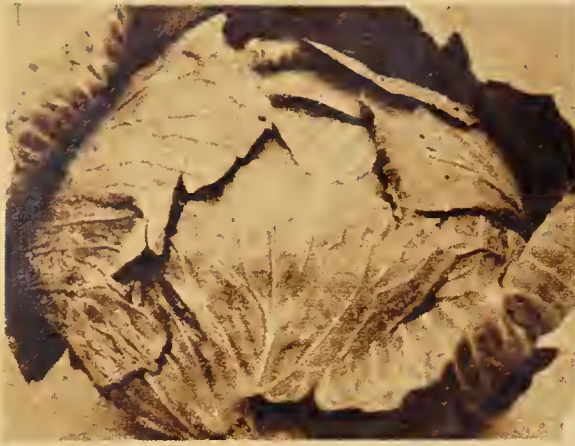

No. 6007 Pkt. 10c; 3 Pkts. 25c.

Yard Long Bean

Cabbage

Golden Acre, Surehead and Ballhead, sown at the same time, will give a succession crop throughout the summer. One packet produces 300 plants 1 oz. 2500.

Surehead

SUREHEAD One of the best late cabbages of the Flat Dutch type, weighing ordinarily from 10 to 15 lbs. each. Of very fine quality, solid and of fine texture. Drought resisting, about 10 days earlier than Danish Ballhead and certain to head. Grown extensively for winter use and one of the best keepers. The heads are large, round, and flattened at the top. A solid cabbage of an excellent flavor. We recommend Surehead for the home garden. No. 4083 Pkt. 5c; oz. 20c; ¼ lb. 75c.

Danish Roundhead

An excellent late fall or winter cabbage, very similar to Danish Ballhead, except it is short stemmed, and the heads are slightly round, solid and heavy, weighing 8 to 9 lbs. each, a marvelous winter-keeper. An extremely popular cabbage by all growers due to its blight resistance, heavy yield, and solidity. We offer a particularly fine strain of seed that matures a week ahead of Ballhead.

No. 4172. Pkt. 5c; 1 Oz. 30c; ¼ lb. 90c.

Allhead Early

Allhead Early

A splendid cabbage well ahead of all large cabbages. Well rounded solid heads of attractive appearance, uniform in size and color, and of the finest quality. Fine for kraut and a splendid winter keeper. An excellent home garden cabbage either for summer or winter.

No. 4171. Pkt. 5c; Oz. 30c; ¼ lb. 85c.

Savoy Cabbage

PERFECTION DRUMHEAD. The best of its class and is as palatable as a Cauliflower. One of the best Cabbages one can grow. Large size flat heads, curly or crinkled leaves. Stalk short, habit compact.

No. 4085. Pkt. 10c; ¼ lb. 75c.

Danish Ball Head

The most popular of fall hard headed winter cabbage which for quality and great solidity has become the most popular winter sort. Heads almost round, fine grained, excellent flavor, good size and so heavy that they outweigh any other. Very reliable, sure header and will keep longer or ship farther than any other.

This variety is now grown more than all others. Large growers can depend on our stock being the very best the world produces. Medium Stem.

No. 4084. Pkt. 5c; Oz. 25c; ¼ lb. 90c.

Kale

This is a species of the cabbage family which is grown for greens. **DWARF SCOTCH.** The best variety. Large, finely curled, parsley-like leaves which can be used for garnishing as well as for greens. Tender and of the very finest flavor.

No. 4117. Pkt. 5c; Oz. 15c.

Cauliflower

Early Snowball

Early Snowball is a most desirable sort for the home garden. The plants are compact, well suited for close planting. The heads are of medium to large size, solid, compact, round, very white, and curdlike and are developed earlier than those of any other sort.

No. 4072. Pkt. 10c; 1 oz. 1.75.

Dry Weather

Best for localities subject to long, dry seasons when all other varieties would be a failure. If given high culture it will produce large, solid, pure white heads of the most delicate flavor. As it is more vigorous than Snowball, it is especially good for high ground. Matures in about 110 days.

No. 4073. Pkt. 10c; 3 Pkts. 25c; 1 oz. \$1.75.

Early Snowball

New Golden Acre

Five days ahead of Jersey Wakefield with the added advantage of being a larger yielder, a much sweeter, better flavor, more crisp, equally as tender, and by far the most solid in head of any cabbage. It matures in about 70 days. It's the earliest cabbage grown. Heads are as solid as lead and will not burst. The texture is exceptionally fine. The quality superb. Leaves are light in color, tightly folded. Stem short. Ripens more uniformly than any cabbage. No. 4080. Pkt. 5c; Oz. 30c; ¼ lb. \$1.00.

Brussels Sprouts

Small Cabbage-like heads which are of extremely fine flavor. The plants are of strong, robust growth. The Sprouts develop for nearly the entire height of the stalk at about the same time, consequently a very large crop can be gathered. Heads solid and improved by light frost.

LONG ISLAND IMPROVED—are the only sprouts we would recommend for the home garden.

No. 4069 Pkt. 10c; 3 Pkts. 25c; ¼ lb. 75c.

Chinese Cabbage

The Chinese Cabbage is being generally accepted as a staple vegetable. Resembles celery, yet is something like Cos Lettuce. Firm, crisp, easily blanched, excellent as greens or salad. It is a delicious new vegetable, healthy and tasty either raw or cooked. In the west it is served as common as lettuce. Of great size but tender as lettuce and with a flavor of Celery. Use in Salads and treat your friends to a rare delicacy. Will grow in any climate.

No. 5000. Pkt. 10c; 3 Pkts. 25c; ¼ lb. 1.00.

Seed must be started very early or very late. Start early, plant indoors. Start late, plant outdoors May 1st. One packet will produce 150 plants.

Cucumbers

We take pride in our superior Pedigreed Cucumbers. Bred for quality, earliness, hardiness, trueness to type and for increase in production. More than that, our seed will cost you no more than just ordinary Cucumber seed. One packet for 12 hills; One ounce for 60 hills

Murvon's Earlibest

Earlibest is not only the first slicer ready for the market, but the quality is equal or better than that of most of the later sorts and it is a great yielder. It is an extra early White Spine, handsome in shape and color. Fruits grow very even in size, usually about seven inches in length, and regular in form. Color dark olive green, smooth, tender and crisp. It is very hardy, robust and free from disease. Ready for market in 55 to 58 days. No. 4055. Pkt. 10c; oz. 20c; ¼ lb. 55c.

Murvon's Fancy Pickles

General favorite everywhere and is used almost exclusively by pickling factories throughout the country. The fruit is of medium size, wonderfully even in growth, slightly pointed at both ends. Extra early and the whole crop can be depended upon to make fine shaped pickles. Color deep green, begins to set its fruit when quite young. You will find this variety valuable for slicing also, being of fine flavor, crisp and delicious. No. 4028. Pkt. 5c; oz. 20c; ¼ lb. 50c.

Murvon's Everbearing Cucumber

A most reliable everbearing variety producing its first fruits very early and continuously over a long period—the first to come and the last to go. The smooth fruits, a dark, rich green in color and medium in size, are produced in abundance closely set on strong vines that remain in good growing condition longer than most other varieties. It retains its rich dark green color for a long time after pickling and the flesh is pure white at all stages of growth.

No. 4031. Pkt. 10c; oz. 20c; ¼ lb. 55c.

Grow Climbing Cucumbers

Save Garden Space

This Cucumber is such a strong and vigorous grower that the vines attain twice the length of ordinary varieties. Vine climbs readily and may be grown on fences, poles, etc., thus saving much valuable space in small gardens. One hill will keep a good sized family supplied all summer.

The vines are of healthy, vigorous growth, and cling so tightly that they are not prostrated by heavy storms of wind or rain. They begin to bear early and continue to produce fruit throughout the season. No. 4100. Pkt. 10c; oz. 25c; ¼ lb. 60c.

China Long

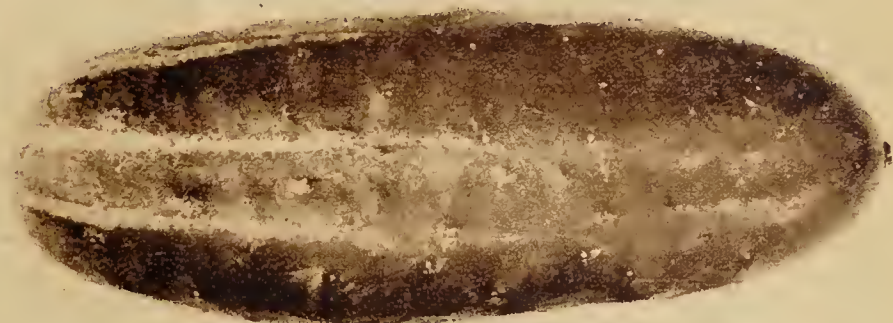

This is a remarkable new long green cucumber from China with fruits from 20 inches to 2 feet in length, and only 2 to 3 inches in diameter. The skin is deep green and nearly smooth, the spines being few and small. There is nothing equal to China Long for crispness except possibly some of the hothouse varieties; flesh solid and of the very best quality for slicing. The nearest seedless of any variety we have ever tried. Nearly as early as the shorter varieties; vines strong, vigorous and productive. A most desirable variety for the home garden, and is sure to be a popular market sort as soon as it becomes better known.

No. 4027. Pkt. 10c; 3 Pkts. 25c; oz. 50c.

White Wonder

Color of White Wonder is beautiful pure white. Remarkably uniform in shape and size, averaging 8 inches long by 2½ inches thick. Begins to bear early in the season and continues until fall: Flavor is pleasing and flesh firm and crisp. Fine sliced or in salads. Its smooth, clear surface makes the White Wonder an ideal pickle. Vines are very productive, ready in about 60 days. No. 4053. Pkt. 5c; oz. 20c; ¼ lb. 55c.

Early Fortune

One of the finest types of White Spine yet produced. Early, very productive and disease resistant; fruits 9 inches long, slightly tapering; flesh white, very firm and crisp, with few seeds. The color is a rich, dark green. Matures in about 50 days. It is one of the earliest and finest dark green-white spine cucumbers. Our seed is "True Stock". Extra Selected Annually—none better. No. 4030. Pkt. 10c; oz. 20c; ¼ lb. 60c.

Extra Early White Spine

A very productive variety, splendid for slicing as well as for pickling purposes. The cucumbers have a beautiful smooth green skin, practically free from all ridges, are almost cylindrical in shape, and measure about 7 inches long and 2½ inches thick. We highly recommend this splendid variety for either the home or market. You cannot possibly go wrong on extra early white spine. No. 4173 Pkt. 5c; oz. 20c; ¼ lb. 55c.

Carrots

Are easy to grow in any fair soil. Every garden should have at least a few rows. They mature in about 65 days. One packet is sufficient for 50 ft. of row, 1 oz. 125 ft. Full cultural directions are on each packet.

Chantenay or Model

Chantenay, or Half Long Model. (See illustration above.) This is one of the very choicest for the home garden. It has a very delicate flavor, comparatively small tops, and ready within 60 days from date seeds are sown. If you are choosing one carrot only, take this one. You can't go wrong with it. No. 4119 Pkt. 10c; oz. 15c; ¼ lb. 35c; 1 lb. 95c, Postpaid.

New Coreless Carrot

At last we are able to introduce a Carrot that is absolutely without a core. A Carrot that is as tender when boiled as a sweet potato. A Carrot with a Delicious flavor of its own. This is such a great improvement over the other Carrots that we predict its General Use in a few years. To get rid of the hard center or Core of the Carrot has been the dream of the Vegetable Edisons for a long while. We assure you that this dream is now a Reality. It not only has no core but is more Tasty than any Carrot we have eaten. One packet will convince you. We suggest that you use no other kind for your Entire Crop this spring. Needs no more care than other Carrots. No. 4102. Pkg. 10c; 3 Pkgs. 25c; ¼ lb. \$1.25.

Coreless Carrot

Early Scarlet Horn

We believe that our strain of this variety is the earliest Carrot grown. Tops small, roots only 2½ to 3 inches in length. Ready for table in 50 to 55 days. No. 4046. Pkt. 5c; oz. 15c; ¼ lb. 35c.

Oxheart

Oxheart An excellent carrot, very free from hard cores or fibre and of very excellent quality. Grows rather wide and stocky, measuring 3 to 4 inches in length, and stump-rooted. It is a deep orange in color. Very tender and sweet. A fine carrot for the home garden. No. 4044. Pkt. 5c; oz. 15c; ¼ lb. 30c.

Orange Danvers A favorite late crop carrot. The roots are 6 to 7 inches long, fine grained, tender and sweet. A fine carrot for the home garden. No. 4191. Pkt. 5c; oz. 15c; ¼ lb. 60c.

New French Touchon

A remarkable Carrot with many splendid qualities that was only recently introduced from France. The roots are 6 to 7 inches long, free from fibre, fine grained, tender and sweet, of a bright orange color. Uniform in shape and size and a heavy yielder. No. 4192. Pkt. 10c; oz. 20c; ¼ lb. 60c.

Celery

Start seed in hotbed, or outdoors as soon as ground can be worked. One packet will produce 300 plants, 1 oz. 6000 plants.

Golden Plume

The earliest and handsomest Celery grown. The plants are of strong growth and produce thick and heavy stalks with a well blanched solid heart. It is considered by many gardeners absolutely the earliest maturing Celery grown. It is large, vigorous and appears to be immune to blight and rust. Highly recommended on account of its ease of culture—it requires no banking. No. 4077. Pkt. 10c; ½ oz. 35c.

Easy Blanching

The heavy stalks are stocky in growth and of medium height and are the easiest and quickest to blanch and keep better in the trench than other sorts. The tender, brittle, sweet, nutty flavored stalks are attractive in appearance. Ready for the table or market in about 115 days. No. 4075. Pkt. 10c; ½ oz. 30c.

Every packet of seed we sell has full cultural directions plainly printed on the face of each seed packet. You make no mistake when you grow Murvon's Seeds.

Celeriac (Turnip Rooted Celery)

The edible portion is the large, swollen root, which is highly valued for salads, for boiling and for flavoring soups, stews and other dishes. Celeriac boiled until quite tender and served cold with a French dressing is one of the most wholesome and delicious salads imaginable. Seed should be sown and given the same treatment as celery, except that no blanching is necessary. Roots are fit to use when about 2 inches in diameter.

GIANT PRAGUE. The best variety of Celeriac, or Turnip Rooted Celery, producing large roots of nearly globular shape. No. 4078. Pkt. 10c; 3 Pkts 25c; ¼ lb. 75c.

Chinese White Celery

This looks something like, miniature Swiss Chard but belongs to Mustard family. It grows up about one foot with heavy dark green glossy foliage. The stems are large and white. Both leaves and stems are exceedingly tender and tasty when cooked. This may come out as one of the most useful vegetables when generally known to the public.

Plantation in early September is recommended but can also be sown in early spring.

No. 6012 Pkt. 10c; 3 for 25c. Postpaid.

Golden Self Blanching

Murvon's Golden Self Blanching

This grand variety grows 18 to 20 inches high, is wonderfully stocky, very heavy, perfectly solid, of desirable flavor and good keeper. The color is a rich golden yellow. It can be easily blanched by drawing the leaves together and bringing the earth up around the plant. For fall or early winter use this has no superior. No. 4074. Pkt. 10c; 3 Pkts. 25c; ½ oz. 35c.

Sweet Corn

The sweetest of Sweet Corn comes right from your own garden. Golden Sunshine, Golden Bantam, Howling Mob and Country Gentleman, planted at the same time, will produce Sweet Corn all summer. Plant 3 ft. apart in hills. One packet 25 hills, ½ lb. 25c. Full cultured directions with every order.

New Golden Sunshine

Ready for the table in 60 days. The same flavor and color as Golden Bantam, but 10 days earlier. Large 12 rowed ears, 7 in. long. Dr. Yeager of the North Dakota Experimental Station developed this fine variety. An attractive and delicious, tender corn, with closely set kernels, as sweet as honey. Grows 4½ to 5 ft. Many stalks bearing two fine ears.

No. 6009. Pkt. 10c; ½ lb. 25c; 1 lb. 45c. Postpaid.

Howling Mob

Howling Mob is one of the best flavored and most tender of all second-early white sweet corns. It matures right after Golden Bantam and makes a perfect succession in this fine variety. Ears of Howling Mob measure from 7 to 9 inches in length and they are closely set with 12 or 14 rows of large, pearly white grains.

No. 4116. Pkt. 10c; ½ lb. 25c; 1 lb. 45c.

White Evergreen

The ears are closely set and filled with delicious white pearly grains, tender and sweet. It is a heavy yielder, splendid for the home garden or market. Earlier and larger than Stowells evergreen.

No. 4186. Pkt. 10c; ½ lb. 30c; 1 lb. 50c.

Murvon's Extra Early

A sensational Sweet Corn, generally accepted as the earliest corn known, being almost 2 weeks ahead of any other variety. Big attractive ears 7 in. long of a delicious flavor sweet as honey, a real corn for eating on the cob. Large, deep, rich golden yellow kernels. Grows 5 to 6½ ft. tall. No. 5006. Pkt. 10c; ½ lb. 30c; 1 lb. 50c.

Stowell's Evergreen

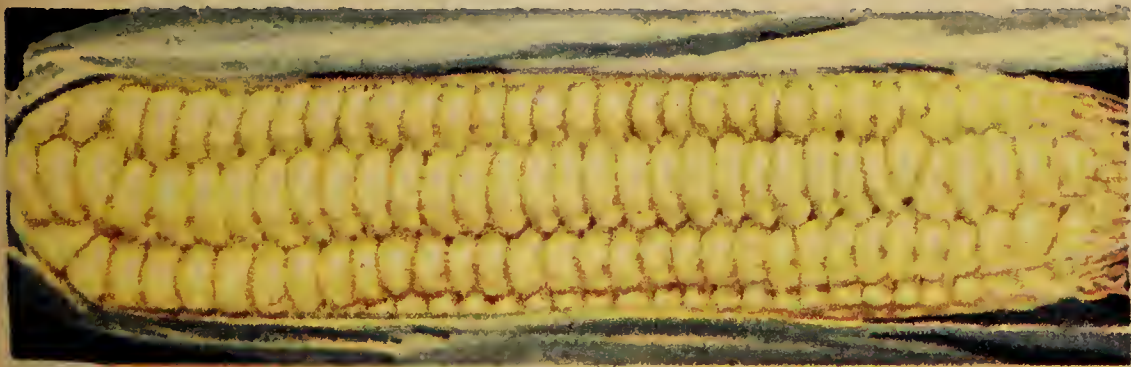

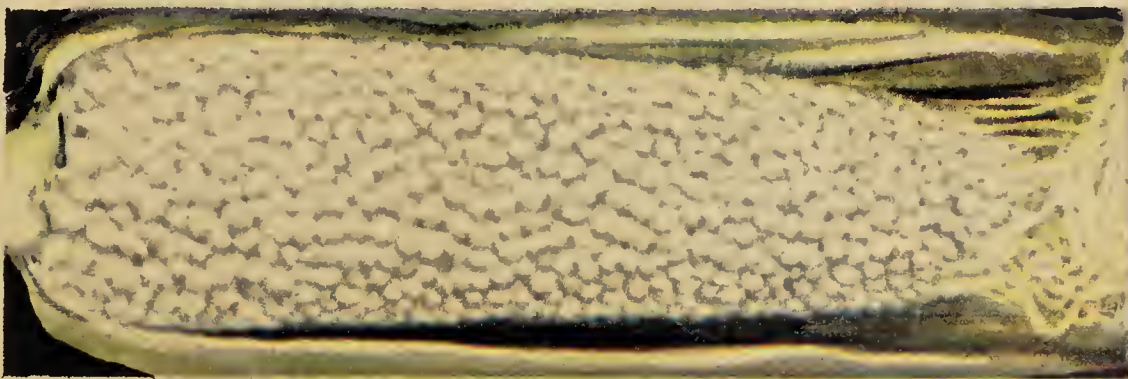

Late maturing sort, producing strong and vigorous stalks, 7 to 8 feet high; produces ears 8 inches long with 16 or more rows of the finest sugary grains. This variety has gained and maintained a reputation for productiveness, fine rich flavor, sweetness and deep set tender white grains. No. 4064. Pkt. 10c; ½ lb. 25c; 1 lb. 40c; 3 lbs. \$1.00. Postpaid.

New Golden Sunshine

Murvon's Extra Early

Country Gentleman

It is just as important to have a good late corn as a good early corn. When other varieties have become coarse, or cease to bear, you have this fine Country Gentleman to fall back on, with its delicious flavor, unsurpassed by any other corn. Very tender, milky and sugary. Considered by many to be the most delicious of all sweet corn. Admirably adapted for canning. Ears are 8 to 9 inches long. Stalks grow 6 to 7 ft. high, bearing 2 to 3 ears each. An excellent corn, which we highly recommend as the best late corn. No. 4063. Pkt. 10c; ½ lb. 30c.

Golden Bantam

Hardly needs any description, as who does not know, of the delicious tender ears of Golden Bantam, America's favorite sweet corn. Ears are 8 rowed 6 to 7 inches long, broad, deep, juicy and sweet. May be planted earlier than many varieties. An excellent home corn, of a size found most suitable for the table. The plants grow 4 to 5 ft. high many of the stalks have two ears. Golden Bantam is suited for extra early and later plantings up to July 10th. Our seed is a carefully selected fine strain.

No. 4062 Pkt. 10c; ½ lb. 25c; 1 lb. 40c.

Pop Corn

Queens Golden

Large golden yellow kernels. An excellent variety, very productive, which pop into the largest, white fluffy flakes of any we have ever seen. A fine standard variety either for the home or commercial grower.

No. 4189. Pkt. 10c; ½ lb. 25c.

Black Beauty

The kernels are black in color, but when popped become a beautiful pearly white. A delicious tasty corn. An abundant yielder,

Plant a week earlier than Sweet Corn. Every boy or girl should plant a small patch. Fine to pop around the fire winter evenings. One packet for 25 hills.

bearing ears about 6 inches long and twelve rowed. You will like this one.

No. 4187. Pkt. 10c; ½ lb. 25c.

South American

Mushroom

A real popper, the largest ever grown. When popped, the kernels are over an inch in diameter, of a beautiful creamy white. A sensational new variety. This is the largest of all pop corns. No. 4188. Pkt. 10c; ½ lb. 25c.

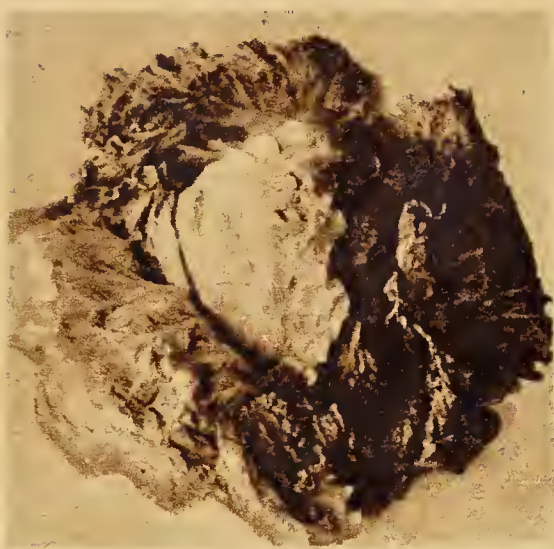

BLACK BEAUTY

Lettuce

Every garden, large or small, should have some lettuce. The best of all salad crops, it is an appetizing and healthful food. It is easy to grow, and requires very little space. One packet will sow 30 ft.; 1 oz. 300 ft.

New York or Wonderful

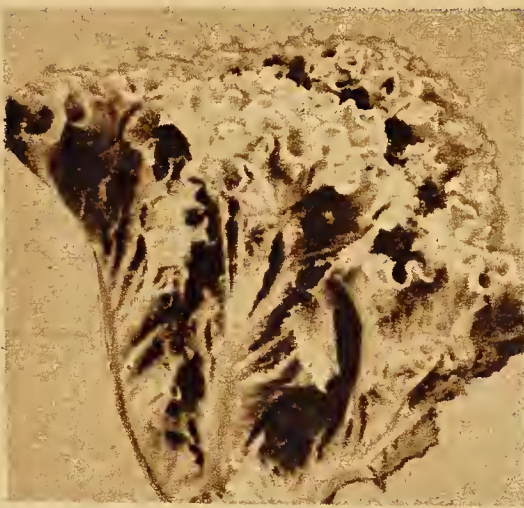

One of the largest varieties grown, a fine hot weather lettuce. An improved strain that has been bred both for large size and earliness. A splendid variety that produces heads more than 15 inches in diameter and weighing over 2 pounds each. A dependable header and solid. The outer leaves are dark green, the tightly folded hearts blanch to almost white. Crop tender and delicious.

No. 4045. Pkt. 10c; oz. 25c; ¼ lb. 70c.

Grand Rapids

A select variety of curled or loose leaf lettuce, keeps its freshness a long time after being cut. It is a standard variety and one of the best. A splendid lettuce for the home garden. Sweet, crisp and tender it is ready for the table in about 40 days. A fine forcer, and produces large and compact plants.

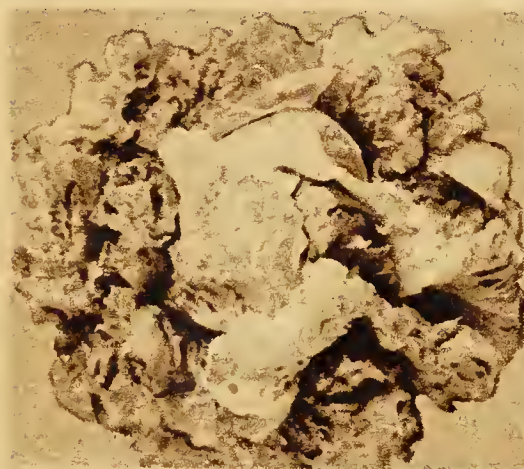

No. 4165. Pkt. 5; oz. 15c; ¼ lb. 50c.

Iceberg

Curled, crisp, plants of medium green, wavy, fringed leaves, having the edges tinged with brown. The heads are compact, medium large, with few, green outer leaves. The most delicious, crisp, tender hearts blanch almost white even under average garden conditions.

No. 4004. Pkt. 10c; oz. 20c; ¼ lb. 50c.

Parsley

Parsley is used for garnishing and seasoning soups, stews, meats, etc. Succeeds best in a mellow, light soil. Seeds slow to come up, often takes two or three weeks. Soaking seeds for an hour or two in warm water assists it to germinate quicker.

Moss Curled Parsley
The best and handsomest Parsley for garnishing salads, etc. Color rich, deep green, beautifully curled.

No. 4068. Pkt. 5c; oz. 15c.

Leek

One Ounce of Seed to 100 Feet of Row

GIANT FLAG. Highly esteemed as a fall and winter substitute for green onions. Excellent for stews, soups or creamed. Belongs to the Onion family but is considered of finer flavor. Mild and sweet; very hardy and easily cultivated in the home garden. The edible stems are 6 to 8 inches in length and about 3 inches in diameter.

No. 4108. Pkt. 5c; oz. 30c

Big Boston Extra Select

This market variety is very popular for outdoor culture and is also in demand as a compact, large heading, forcing sort for cold frames. The plants are large, very hardy and vigorous. The leaves are broad, comparatively smooth but wavy at the edge, thin, very hard and crisp. In color they are bright light green. The inner leaves blanch to an attractive greenish white, tinged with light yellow.

No. 4000. Pkt. 5c; oz. 15c; ¼ lb. 50c.

Wayahead

It will produce excellent results under a great diversity of conditions. Highly recommended as a spring and fall Lettuce for planting in frames or in the open. Wayahead is vigorous and healthy, producing medium sized plants with dark green foliage. The buttery heads are compact, with few outer leaves. The hearts blanch to a creamy white, and are delicious, tender, tasty, and sweet.

No. 4001. Pkt. 10c; oz. 20c; ¼ lb. 65c.

Murvon's Brittle Ice

A splendid lettuce. A strong grower, forming a very large, tightly folded head. The name Brittle Ice is all it implies, the crispest of all crisp lettuce. Of excellent quality, tender and a good shipper. An excellent home garden lettuce that we know will satisfy. No. 4164. Pkt. 5c; oz. 20c; ¼ lb. 55c.

Lettuce All Summer

We make up a mixture of all the different lettuce, including the best early, medium early, and late varieties, both curled and head lettuce. Sow them in the spring and you will have a continuous crop. No. 4163. Pkt. 5c; oz. 15c.

ENDIVE Winter Lettuce

Almost everyone loves lettuce; in our opinion Endive has all the good points of lettuce, yet is much more attractive and certainly more highly flavored.

GREEN CURLED

A hardy vigorous growing endive with bright deep green leaves. The dense mass of deeply divided leaves formed in the center blanches very readily to a rich cream color. This sort is much used for salads.

No. 4032. Pkt. 5c; oz. 15c.

Endive Fine Green Curled

Broad Leaved Batavian

A variety having broad, more or less twisted and waved bright deep green leaves with thick, nearly white midribs. The inner leaves form a fairly solid, clustering head which blanches to a beautiful deep creamy white and is crisp and tender. This sort is unsurpassed for salads and is much used for the home garden and market. No. 4033. Pkt. 5c; oz. 15c.

Onions

We list some excellent varieties. Our seeds are bred for Disease—Resistant qualities and will do exceptionally well in the home garden. A packet will

sow 25 ft., one ounce 100 ft.

Yellow Globe Danvers

One of the most extensively used main crop onions for the home garden and market. The bulbs are of medium to large size, uniformly globe shaped, with small neck, and ripens very evenly. The skin is rich yellow. The flesh is creamy white, crisp and of mild, excellent flavor. The variety keeps well. This is the favorite of all the yellow globe onions. Matures earlier than Southport yellow globe, a selected strain. No. 4114. Pkt. 5c; oz. 35c; ¼ lb. \$1.10.

Mammoth Silver King

A mammoth white variety, one of the largest grown. The large bulbs are very attractive, slightly flattened but quite thick and under good cultivation average 5 to 7 inches in diameter. The skin is a very beautiful silvery white with flesh snow white, very tender, mild and sweet. Mammoth bulbs can be grown from Spring-sown seed, maturing in from 90 to 100 days. No. 4111. Pkt. 5c; oz. 35c; ¼ lb. \$1.15

Prizetaker An exceptional large onion with very many fine qualities and one of the most widely used. Grow to an enormous size, under good growing conditions will sometimes weigh almost 4 lbs. each. The onions are globe shaped, very handsome yellow color and mild pleasant flavor. These onions may be grown with perfect success in the open ground. No. 4110. Pkt. 5c; oz. 30c; ¼ lb. 90c.

Japanese or Ebenezer Similar in size and shape to yellow globe danvers. A yellow skinned variety, very popular at the present time. A heavy yielder and long keeping. A delicious attractive, large mild onion of excellent flavor. No. 4112. Pkt. 5c; oz. 35c; ¼ lb. \$1.10.

Parsnips, Improved White

Sow early in 18 inch rows. One ounce sows a 200 foot row. Parsnips we consider come next to Sweet Potatoes as a real appetizing vegetable.

IMPROVED WHITE QUEEN—Medium long with broad shoulder. Fine grained, tender and sweet. The roots are about 8 to 10 inches long, with a smooth, white skin. Uniform in shape, very tender and finest flavor. No. 4066. Pkt. 5c. oz. 15c.

Kitchen Herbs

DILL—For flavoring soups, sauces and pickles.
SAGE—Indispensable in the kitchen for flavoring.
THYME—Used for flavoring soups, stews, gravies, etc.
LAVENDER—Delicate perfume for clothes, closets, etc.
Any of the above packets, sufficient seed for home garden use. Pkt. 5c.

Murvon's Perfect Pickling

This is the earliest Onion in cultivation. Nine weeks from sowing to maturity. The bulbs are pearly white, waxy, translucent, and are generally very small, averaging only 1½ inches, and are uniform in size and shape. So mild and sweet that it can be eaten raw with almost the freedom of an apple. The best of all for small pickles.

No. 4113. Pkt. 5c; oz. 30c; ¼ lb. 90c.

Large Red Wethersfield

For a red onion none is so largely grown or so popular. It grows quickly, attaining full size from seeds sown early in the spring. It is a sure cropper, always doing well where any onion will. Fairly strong flavor and keeps. Bulbs slightly flattened, and of rich red color. No. 4115. Pkt. 5c; oz. 35c; ¼ lb. \$1.10.

Sweet Bunching Onions

A really Delicious green eating Onion or Scallion. It is a recent importation from Japan and is grown for us by a famous Japanese grower. We tried this out last year in our trial grounds and the results more than warranted our placing on the market this delicious and valuable addition to the Vegetable Garden. We found it to be Perfectly Hardy, Sweet and Tender. It will do well from Florida to Michigan, something very rare in an onion of this type. We know of no other Onion that blanches so well. Very easy to grow. Seed sown in the spring will give an abundance of fine eating onions thru-out the Fall and Winter. No. 6014. Pkt. 10c; 3 Pkts. 25c; ¼ lb. 85c.

Reliable Asparagus Seed

MARY WASHINGTON—Is decidedly the best variety for the home garden or commercial planting. Grows more rapidly than any other variety, perfectly dependable. The stalks are very thick and grow unusually tall without branching. Tight purple tips and fine flavor.

No. 4070. Pkt. 5c; oz. 15c.

Egg Plant

Black Beauty—The earliest of all large fruited egg plants. Enormous purplish black fruits. Delicious. No. 4120. Pkt. 5c; oz. 45c.
New York (Spineless). An entirely spineless strain, exceptionally productive. Deep purple fruits, smooth and of the finest quality. No. 4106. Pkt. 5c; oz. 45c.

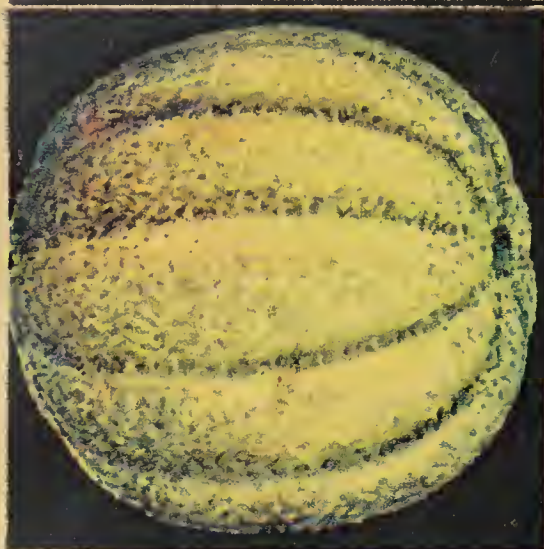

Muskmelon

Plant seed in hills 4 ft. apart covering half inch. One packet for about 12 hills, 1 oz. 50

hills. They mature in about 75 days.

Any person can raise melons and they will grow almost anywhere

Honey Rock

Also called sugar rock. A comparatively new melon, medium size fruits, with a gray-green skin, and a heavy coarse silvery netting, making them one of the most tempting appearing, as well as the most tasty, and delicious melon. The deeply salmon colored flesh has a fine smooth texture, and is exceptionally sweet.

No. 4185. Pkt. 5c; oz. 20c; 1/4 lb. 55c.

Hale's Best A very early large melon. Thick salmon pink color, clear thru to the rind. Of excellent flavor and uniform quality. The earliest of all early melons 75 to 80 days. A popular home and market variety, splendid shipper.

No. 4184. Pkt. 5c; oz. 20; 1/4 lb. 50c.

Netted Gem—Rocky Ford

A popular and well known melon. Flesh light green, so sweet and delicious that it may be eaten close to the rind. Melon nearly round, very small cavity, uniform in shape and size. Skin is green, turning to gray when ripe, has a silver colored netting. A delicious melon.

No. 4182. Pkt. 5c; oz. 15c; 1/4 lb. 45c.

Golden Hearts (Hearts of Gold)

Golden Hearts is a medium early Melon. The flesh is thick, very tender and of a beautiful golden salmon color. It is of excellent flavor, being very sweet and delicious. It ripens clear to the skin. The Melons are well ribbed, and are covered with a dense netting of grayish color. The thin rind is a rich dark green color. The melons grow uniform in size. The vines very productive. In every way a splendid melon.

No. 4003. Pkt. 5c; oz. 15c; 1/4 lb. 50c.

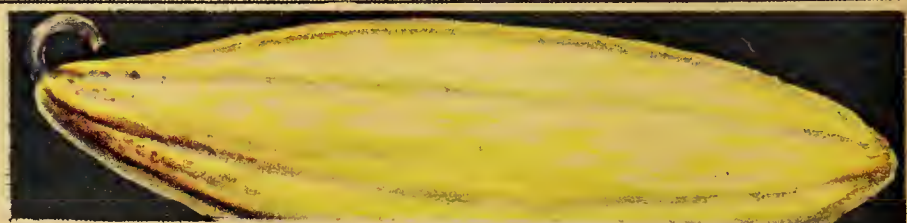

Bender's Surprise

Exquisitely fine flavor, large size and medium earliness combine to make this new melon a great favorite. Melons average quite large, many weighing 10 pounds or more; oval in shape; light green with coarse netting, and turn a golden tint as they mature. Flesh deep orange. very thick and deliciously sweet. Will keep in good condition a week after picking, and actually improve in flavor during that time. A vigorous and heavy cropper. A great favorite. No. 6001. Pkt. 5c; oz. 20c; 1/4 lb. 50c.

Honey Dew, the Famous Melon

The melon is nearly white, turning to lemon-yellow when ripening, and the average size is a little larger than that of a coconut. The flesh is light green, the juiciest and sweetest Muskmelon and luscious in flavor. The rind is hard. it is good as soon as picked off the vine and will keep good for months if kept in a cool, dry place. A good shipper and a splendid fruit. No. 4021. Pkt. 5c; oz. 20c; 1/4 lb. 55c.

New Banana Muskmelon

This melon surpasses all others in its delicious fragrance. The flesh (the melon being nearly solid) is of a rich salmon. The quality is excellent when the melon is thoroughly ripe. It grows from 18 to 36 inches in length, and is very prolific. It looks almost like an overgrown banana and smells like one. Has a flavor all its own. Very sweet and delicious.

No. 4071. Pkt. 5c; 1 oz. 15c; 1/4 lb. 45c

Delicious

A new early variety. Light green, oval fruits, finely netted. Firm tender flesh of a beautiful orange color. Single melons weigh 5 lbs. each. Flavor is the most delicious, hence its name.

No. 4183 Pkt. 5c ; oz. 20c; 1/4 lb. 50c.

Sugar Boy Watermelon

Sugar Boy Watermelon is the sweetest, most delicious and most prolific Watermelon on earth. There is no Melon that can begin to equal it in quality. richness of flavor, lusciousness, deep, juicy, rich core, fine outward appearance, large giant size and extreme earliness. We say there is no Melon on earth that can approach it in the quality that goes to make a superb Melon. Sugar Boy Melon will grow to weigh from 20 to 60 pounds, and every one of them, large or small, is sweet, tender, juicy, brittle, stringless and melting on the tongue. This Melon—being a cross of the Halbert's Honey, Monte Crisco and Kleckley Sweet—resembles very much the Kleckley in outward appearance. It retains all the good qualities of Kleckley Sweets, has a harder rind, making it a better shipper, grows larger and more uniform and has no hard white centers. Try this Melon. You will like it.

No. 4024. Pkt. 10c; 3 for 25c; 1/4 lb. 50c; 1 lb. \$1.25.

Many other splendid watermelons on page 46. A choice list of the best for home or market.

Peppers

Like a rich warm soil. May be sown outdoors after all danger of frost is past. For early peppers, start indoors in a box place in a warm window. One packet for 75 plants, 1 oz. 1500 plants.

Ruby King Improved

The finest and foremost pepper for either the home or market gardeners. Large green fruits 4 to 6 in. long, turning to a ruby-red when ripe. A fine pepper, one of the largest grown. Plants loaded with delicious fruits of immense size, mild and of a delicate flavor. Flesh thick, crisp and tender. Ideal for salads, stuffing, etc. One of the best, dependable peppers.

No. 4012. Pkt. 5c; ½ oz. 25c 1 oz. 40c.

Early Neopolitan

Excellent fruits averaging 4 in. long by 2 in. thick. A delicious early, large, sweet, tender, mild pepper. Very prolific, single plants frequently carry 40 to 50 fruits.

No. 4015. Pkt. 5c; ½ oz. 25c; 1 oz. 40c.

Sunny Brook

The sweetest of all sweet peppers. Bears an enormous crop of handsome fruits.

Deep red, extremely thick mild flesh, very appetizing and delicious flavor, a sure winner. No. 4181. Pkt. 5c; ½ oz. 25c.

New Golden Giant

The finest and largest yellow pepper. A splendid general purpose pepper of the highest quality, one that we can safely recommend. The skin is a pure golden yellow, very attractive. The color is carried right thru the flesh, making it an ideal pepper for salads, etc. It is extremely mild and sweet. A fine home garden pepper and a fine seller for the gardener. No. 4180. Pkt. 5c; ½ oz. 25c; 1 oz. 45c.

Large Bell or Bull Nose

Sometimes called Sweet Mountain. The plants are vigorous, and very productive, ripening their crops uniformly and early. The fruits are large, with thick, mild flesh of excellent quality for use in salads and mangoes or stuffed peppers. No. 4009. Pkt. 5c; 1 oz. 35c.

New Garden Cherry

Bears Fruit the First Year

Bears fruit the first year from seed planted in the open ground. The fruit is a little larger than a cherry, but without any stone. It is really a type of very small sweet tomato. Excellent eating and of fine flavor. This wonderful novelty if once planted we are sure will always be in your garden. No. 5003. Pkt. 10c; 3 Pkts. 25c.

California Wonder

Originated in California. A splendid variety for home and market. Fruits 4½ in. long by 3½ in. thick, a large pepper, thick meat and of excellent quality. The plants are strong, upright and very prolific, bearing enormous quantities of large deep green fruits. Excellent for green pepper hash and salads. Mild, sweet and a delicious flavor. No. 4179.

1 oz. 55c.

Chinese Giant

This grand pepper is not only the largest, but it is also of the finest quality, being especially desirable for stuffing, green pepper hash, salads, etc. Plants strong, stocky, erect, bushy, grown about 2 feet tall. Fruit of enormous size. Flesh thick, mild and of excellent quality. Has no superior. No. 4011. Pkt. 10c; 3 Pkts. 25c; oz. 50c, Postpaid.

"Hot Varieties"

LONG RED CAYENNE The well known hot pepper. The fruit is long, slender, pointed and twisted. Very prolific, the color changes from deep green to bright red when ripe.

No. 4174. Pkt. 5c; ½ oz. 25c.

RED CHERRY Resembles a small tomato, an ideal pickling pepper. Fruit is about 1½ in. diameter. If you want hot peppers try this one. No. 4175. Pkt. 5c; ½ oz. 25c.

HUNGARIAN YELLOW The hottest of all hot peppers. Fruit is 6 in. in length, straight and tapering to a point, very prolific. Plants producing great quantities of these hot fruits. No. 4176. Pkt. 5c; ½ oz. 40c.

Mixed Peppers

On account of the demand from home gardeners, we are offering a mixture of Peppers, containing both the sweet and the hot varieties. This gives you an excellent assortment. No. 4177. Pkt. 5c; ½ oz. 20c.

Pimento

A rather small but extremely mild pepper smooth as an apple and with a single point. Excellent for putting up in jars, delicious as a sandwich. Fruits are about 3½ in. long by 2½ in. thick. At first they have a smooth dark skin, this later turns to a very dark red. No. 4178. Pkt. 5c; ½ oz. 25c; 1 oz. 40c.

Garden

Huckleberry

Grows from seed the first year. A new fruit that cannot be excelled for Pies and Preserves. It is very prolific, yielding an immense crop of fruit. Grows and thrives in all climates and on all kinds of soil. The fruits grow larger than the common Huckleberry or Blueberry and will remain on the plant two months after they are ripe. If cooked with apples, lemons, or anything sour they make the very finest jelly.

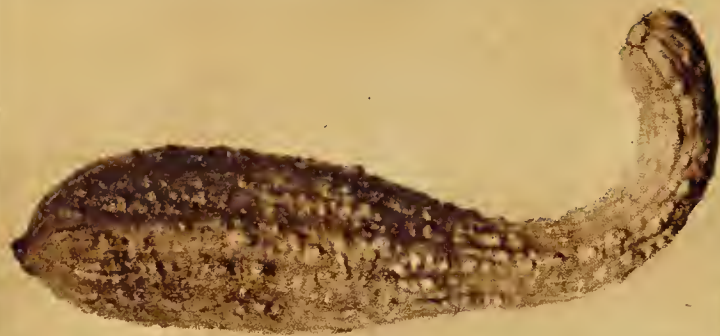

No. 5002. Pkt. 10c; 3 Pkts. 25c.

Squash

Plant after danger of frost is past. A rich warm soil is conducive to high yields. Plant in hills 4 ft.

apart putting six seeds to the hill. One packet 8 to 10 hills, one ounce 30 to 40 hills.

Golden Summer Crookneck

One of the best of the Summer Squashes. It is of dwarf, bushy habit and very productive. The skin is yellow. The shape is shown in the illustration. The flesh has a deep golden yellow color and of most agreeable flavor. This is, in fact, most highly esteemed of all the summer varieties. No. 4008 Pkt. 5c; oz. 15; ¼ lb. 45c; 1 lb. \$1.25.

New Table Queen

A squash fit for a queens' taste. Vines are very vigorous and productive. A nice size for the home garden. Meat is dry, mealy, and extra fine flavor. Cut in half and baked for 20 minutes they are delicious. Fine for pies. No. 4152. Pkt. 5c; oz. 15c; ¼ lb. 50c.

Early White Bush

A favorite summer white skinned squash. Fruits 12 to 15 in. across of uniform shape, flat and scalloped. Also known as white patty pan. A favorite everywhere. No. 4151. Pkt. 5c; oz. 15c; ¼ lb. 40c.

Mixed Squashes

A fine home garden mixture made up of all the excellent squashes listed here, both summer and winter. A nice collection of different squashes for the garden. No. 4150. Pkt. 5c; oz. 15c.

Improved Hubbard

An improved strain of this most excellent winter squash with dark bronze green skin. Delicious, fine grained, deep orange flesh which is sweet and dry. A fine keeper and shipper, about 12 inches long and 10 inches thick. Uniform in size and a standard winter squash for the home or market. No.

4158. Pkt. 10c; oz. 20c; ¼ lb. 50c.

Delicious

Unsurpassed for sweetness, richness or flavor and extraordinary quality. Excellent for fall and winter use; keeps well until late in the spring. Fruits usually weigh 5 to 10 lbs.; rind dark green, mottled in lighter shades; dark orange flesh; very thick and fine grained. An early winter variety that is a splendid squash for the home garden or market. A great favorite wherever grown. No. 4005. Pkt. 5c; oz. 15c; ¼ lb. 75c.

Blue Hubbard

A large squash of the familiar hubbard shape, of excellent quality. An attractive blue grey in color, distinct from any other squash. Extra thick meated, dry, fine grained and delicious flavor. Keeps well and is a fine shipper. A most popular variety. No. 4018. Pkt. 10c; oz. 15c; ¼ lb. 50c.

Cocozelle Bush

Also called Italian Vegetable Marrow. A delicious summer squash. Fruits are oblong 12 to 15 inches in length and 4 to 5 inches in diameter. Very early (60 days) and a heavy yielder. Delicious and tender, may be fried like egg Plant. No. 4149. Pkt. 5c; oz. 20c; ¼ lb. 50c.

Spinach

A wholesome healthy green, that should be in every garden, very easily and quickly grown. (40 to 55

days) in any good garden soil. One packet 25 ft. row, oz. 75 ft. row.

Princess Juliana

A choice long-standing variety, very popular with the market gardener and just as excellent for the home garden. An excellent dark, glossy, metallic green, mid-season variety, producing an abundance of thick, crumpled leaves, close to the ground

No. 4156 Pkt. 5c; oz. 10c; ¼ lb. 30c.

Swiss Chard

The outside leaves are excellent boiling greens, and resemble spinach in flavor. The large white stalks are used like Asparagus, boiled and served with melted butter or creamed, and are fully as delicious as asparagus.

Lucullus

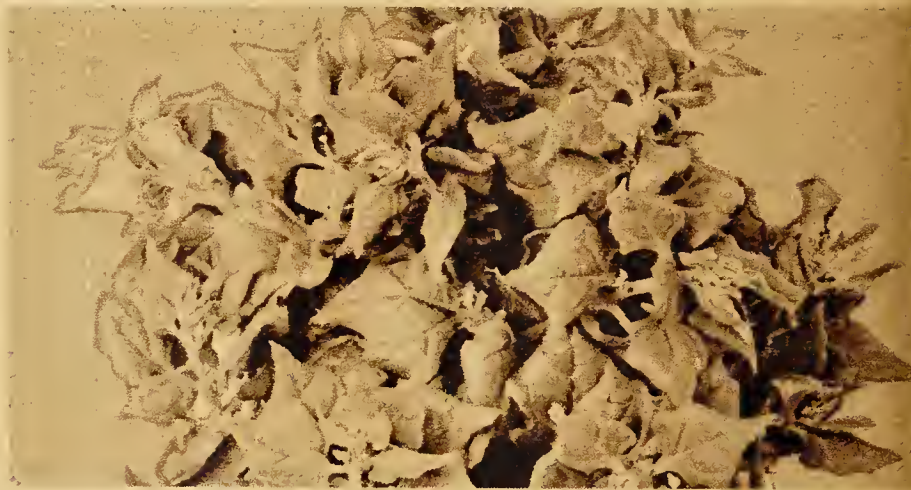

Well known and very popular. Very large, light green leaves, with white stalks. No. 4065 Pkt. 5c; oz. 15c.

Fordhook Giant

Rich blue green leaves. Grows to enormous size. An outstanding variety. Pearly white stalks. No. 4154 Pkt. 5c; oz. 15c.

Swiss Chard Lucullus

New Zealand Everbearing

The Hot Weather Spinach

A distinct type of Spinach with small green leaves, which make large, bushy plants, often 3 feet in diameter. Only the young leaves and tips of the branches are used, and the more they are picked the faster the plant seems to grow. It will give you fine greens all summer and fall. Especially suited to dry and arid locations where other varieties do not do well, and the only kind that can be successfully grown in extremely hot weather.

No. 4007. Pkt. 5c; oz. 15c; ¼ lb. 50c.

Bloomsdale

A standard early variety of savoy leaved, long standing spinach. A high quality spinach that is extensively grown for the market and canning, probably more than any other. The leaves are a glossy dark green, curled like those in a savoy cabbage. The plant is hardy and of a upright growth, one of the best to plant in the fall for early spring use. No. 4157. Pkt. 5c; oz. 10c; ¼ lb. 25c.

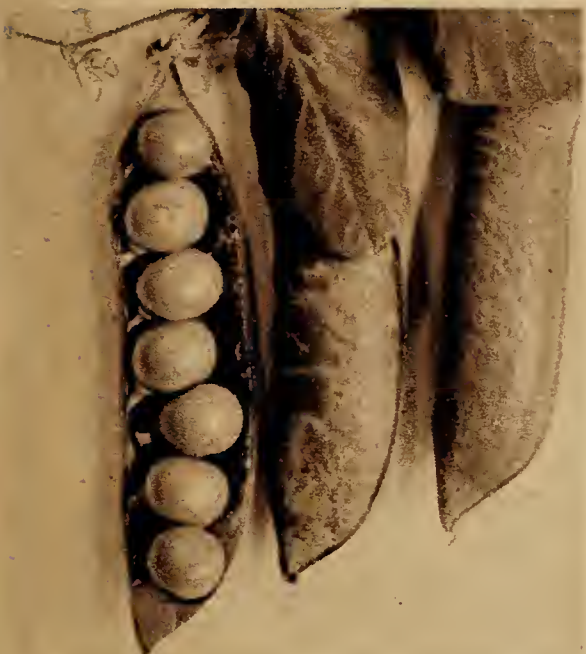

Giant Nobel

A new early spinach of very high merit, that is more long standing than most varieties. Giant thick leaves, the largest spinach under cultivation. Plants 10 inches high and 2 feet across. The large arrow shaped leaves are thick and of a handsome green color unusually tender and of excellent quality. A heavy yielder and the best of the giant smooth leaved sorts. No. 4155 Pkt. 5c; oz. 10c; ¼ lb. 25c.

Garden Peas

Home grown peas are delicious. They thrive in any good garden soil. Peas like a moderate temperature and plenty of moisture. Start them early for June peas, and again in August for the fall. One half pound for 50 ft. of row. A packet for 8 or 9 feet of row.

Mammoth Melting Sugar

Edible Pods

The pods of this variety are cooked with the Peas, as they have a very high sugar content, are very tender and stringless, making a delicious dish and a good change in the menu. Pods are 4 inches long and as broad as a large Lima bean, brittle, very juicy and sweet, while the large, tender pods have a delicious flavor. Try this once, and you will want to grow them every season. Vines grow 3 ft. high, loaded with pods.

No. 4098. Pkt. 10c; ½ lb. 25c; 1 lb. 45c.

Telephone The sweetest, most sugary of all peas. Always a leader with market gardeners. So well known it hardly needs any description. Height 4 to 5 ft, pods of large size, over 4 inches long well filled with 6 to 8 large peas, of a rich, sweet flavor. Always a sure cropper. No. 4148. Pkt. 10c; ½ lb. 25c; 1 lb. 40c.

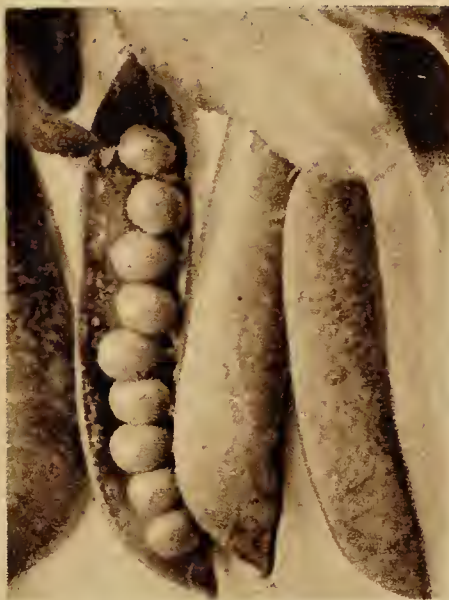

First and Best

A fine extra early, smooth seeded, growing 2 ft tall. Vines are vigorous, hardy and very productive, carrying an abundance of well filled pods full of small luscious peas of a delicious flavor. No. 4146. Pkt. 10c; ½ lb. 25c; 1 lb. 35c.

Special Offer

Murvon's all-season pea collection. Plant these three excellent varieties for delicious peas all summer.

EARLIEST ALASKA—early
MURVON'S EVERBEARING—medium
TELEPHONE—late
All 3 packets 25c.

Early Gradus

An extra early large podded variety, pods are large as Telephone, very showy, same shape as Telephone. Vines much stronger than Alaskas, delicious flavor. Height about 3 to 3 1/3 feet. Vines similar in appearance to Telephone. Pods very large, about 4 1/2 inches long. Peas very large, of splendid quality, green color. No. 4103. Pkt. 10c; ½ lb. 25c; 1 lb. 45c.

The American Wonder Pea

The remarkable increase in POPULARITY of the American Wonder Pea would be more surprising, only for the WONDERFUL VALUE it represents. BIGGER CROPS with LESS LABOR. Needs NO BUSHING at all.

Its strong stem holds it upright, being only 10-12 inches high.

It is an EXTRA EARLY Dwarf Wrinkled Pea of sterling quality. Pods are FIRM and well filled with SPLENDID peas. Length of pods are two and a quarter inches. For your MAIN CROP you cannot beat the AMERICAN WONDER PEA.

Very prolific with pods well filled with good sized peas. Seed planted in May will mature in 35 to 40 days, and the short, robust vines require no support. Fine for the home garden.

No. 4097. Pkt. 10c; ½ lb. 25c; 1 lb. 40c.

Earliest Alaska We still believe that for a main crop for early planting. Alaska still holds the lead. A green seeded extra long, containing 5 to 6 blue-green, small, slightly pitted to smooth seeds. One of the best extra early peas, (55 days) in the market, and a great favorite with canners and market gardeners. No. 4101. Pkt. 10c; ½ lb. 25c; 1 lb. 40c.

Radio

One of the best, and a real favorite that you will like. Six weeks after planting they are loaded with large well filled pods. They make a growth that is amazing. The seed is smooth, with slight dimples, a truly delicious pea. An exceptionally choice variety growing about 15 to 18 in. tall, most prolific and attractive. Try radio peas in your garden, we are sure you will enjoy them.

No. 4147. Pkt. 10c; ½ lb. 25c; 1 lb. 40c.

Laxton

A main crop variety and perfectly reliable. The only rival to gradus, as an early long podded, wrinkled pea. Among the large peas Laxton is considered by many growers as the best. Deep dark green peas that present a very attractive appearance on the table. The crops ripen only 2 or 3 days after gradus. Ready for the market in 58 days. The plants grow 2 1/2 ft., or more in height, pods about 3 1/2, well filled.

No. 4145. Pkt. 10c; ½ lb. 25c; 1 lb. 40c.

Murvon's Everbearing

A very productive second early variety, 70 to 75 days. Height 2 1/2 ft., close jointed vine, thickly covered with round, well filled pods 3 inches or more in length, of a light green color. Delicious tasting peas, very large, tender, and flavor of their own. Bears a long season. Very robust vines that need no support. An excellent sort either for the home or the market garden. No. 4144. Pkt. 10c; ½ lb. 25c; 1 lb. 45c.

Radishes

The earliest vegetable that can be grown in the garden. Radishes should be grown quickly in order to get the best results. Do not

plant too deep for hard, crispy radishes. One ounce for 100 ft. sow.

Overnite Or Wonder Radish

It almost seems "Overnite," for 14 days is surely a short time.

Unquestionably one of the earliest radishes grown. It is practically leafless, having usually only two small leaves, hence its earliness. Although bred for extreme earliness, it is conceded equally as tender as the tenderest radish grown. It is very globular in shape, extremely mild. Unusually crisp, cool, tender and sweet. Delightful flavor, strikingly handsome on the table. Devoid of pithy, woody substance. Keeps its tenderness and freshness for a prolonged period.

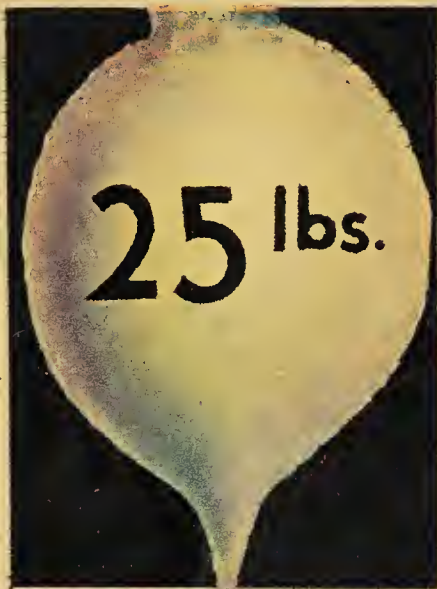

No. 4016. Pkt. 5c; oz. 10c.

Japanese Giant Radish

The great Sakurijima Radish from Japan, often attaining the enormous weight of from 15 to 30 pounds. A real "novelty" to Americans.

The flesh is solid; firm and brittle and of excellent flavor. Will grow or thrive in any soil or climate. Can be planted in spring and eaten all summer long and keeps through the winter. Thrives in hot and dry weather. Try this monstrous variety and you will find real value.

No. 6011. Pkt. 10c; 3 for 25c.

Crimson Giant A new early radish, a rapid growing sort of a beautiful deep crimson color. Twice the size of any of the early globe types, often measure 2 inches in diameter. Mild in flavor, tender skin, firm, crisp and delicious. A good keeper, ready for the table in 4 weeks. No. 4141. Pkt. 5c; oz. 10c.

Mixed Radishes Radishes of all colors — red, pink and white; round, oblong, half-long and long; and from the earliest to the very latest varieties. One sowing is all that is required for the whole season. No. 4139. Pkt. 5c; oz. 10c.

White Icicle

The finest and most popular of all long white radishes. Pure white, mild in flavor, always tender, juicy, and as brittle as ice. They grow 4 to 6 in. in length and are ready for use in 3 weeks. Can be used when small. An excellent spring or fall radish. The leaves are short which permits of close planting. Retains its fine table condition longer than any other radish. The best for the home garden. No. 4020. Pkt. 5c; oz. 15c.

White Icicle

Scarlet Globe

A round bright scarlet radish of fine quality. 1 in. in diameter. Delicious and tasty. Matures in twenty days. Has a small top and the Radishes are surprisingly uniform in shape and size. Extra early. crisp, juicy and mild.

No. 4017. Pkt. 5c; oz. 10c.

French Breakfast

A universal favorite for home garden and market. A medium small, crispy, table radish of a delicious flavor, oval in shape. Of quick growth ready for the table in 21 days. Color is a beautiful scarlet, except near the tip where it is pure white. A splendid variety on account of its earliness and attractive color. Flesh is white, firm, crisp and tender. No. 4140. Pkt. 5c; oz. 10c.

Early Saxa

The best extra early variety for forcing, and for growing in the open ground. From the time of seed growing to the table in 16 to 18 days, and under ideal conditions are fit to pull in 15 days. It is round, bright scarlet in color and has a very small top and taproot. Flesh pure white, crisp, brittle mild and juicy. The Saxa is one of the slowest to shoot to seed.

No. 4025. Pkt. 5c; oz. 15c.

Saxa Radish

Black Spanish

A novelty in radishes Black-skinned with pure white flesh, 7 to 10 in. long and 2 to 3 in. thick. No. 4143. Pkt. 5c; oz. 15c.

Pumpkins

We list three of what we consider the best and most reliable Pumpkins 1 packet for 7 or 10 hills, oz. 30 hills.

King of the Mammoth

This is the very best genuine strain of the true Mammoth Pumpkin. Fruits grow to enormous size, sometimes reaching two feet or more in diameter, and from one hundred to two hundred pounds in weight. Salmon-orange skin; very thick, bright yellow flesh, which is fine grained, tender, and of excellent quality for pies.

No. 4105 Pkt. 10c; 1/4 lb. 50c; 1/2 lb. 90c; 1 lb. \$1.75;

Big Tom or Connecticut Field

An excellent large Pumpkin, also known as Connecticut Field. Tremendous large orange fruits weighing 25 lbs. each. A fine standard variety. They are round, flat on the ends, with a smooth hard rind. Thick sweet flesh, delicious for pies or for canning. Need plenty of room as the vines make a vigorous growth. A great favorite. No. 4142. Pkt. 5c; oz. 15c.

Sweet Potato Pumpkin

TENNESSEE SWEET POTATO is an excellent sort which, when cooked, resembles a sweet potato in flavor, but is of more delicious taste. It is pear-shaped and slightly ribbed. The color is creamy white, sometimes striped with green. Flesh is fine grained and very dry. Fine when cooked like sweet potatoes and nothing superior for making pies and custards. Matures in 95 days, is hardy and productive, and keeps perfectly sound until late in the spring. No. 4104 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 45c;

King of the Mammoth Pumpkin

Tomatoes

No garden is complete without tomatoes. Rich in vitamins, wholesome, and delicious for salads, canning and garnishing. 1 package for 100 plants, 1 oz. 3000 plants.

New Burbank Tomato

Mr. Burbank's wonderful genius has created a Tomato that from seeds planted in open ground bears fruit earlier than plants. Mr. Burbank himself made the remarkable statement that "a second crop of tomatoes has been grown in one season from the seed of the first crop." A. I. Root, editor of Bee Culture states that he planted Burbank Tomato Seed when his other tomato plants were budding, yet his first ripe Tomatoes came from the Burbank. The Burbank is also Blight proof and a big bearer. Very solid and meaty, with few seeds and of fine flavor. No. 4059. Pkt. 10c; ½ oz. 50c; 1 oz. 95c

A CANADIAN TESTIMONIAL

Last year several of the gardeners here sent for your "Burbank" Tomato seed. I received six plants from them. As for a cropper, the like was never seen in these parts before, and one of the gardeners took first prize with them at the gardeners' show.—H. O. H., London, Ontario, Canada.

Murvon's Matchless

One of the best large fruited. Has every good quality desired in a main crop tomato. Vines are very sturdy, vigorous and productive, producing an enormous crop of large handsome fruits of a rich red scarlet color. Never fails to attract attention, being perfectly smooth, free from cracks and other irregularities. No. 4095. Pkt. 5c; ½ oz. 25c; oz. 40c

Oxheart

One of the largest of all Tomatoes. Individual Tomatoes weigh as much as a pound and a half. Very solid and meaty with few seeds. Fine scarlet fruits. smooth and evenly colored, of a delicious flavor. The giant fruits will make you more than proud if you grow this splendid variety in your garden. No. 4162. Pkt. 5c; ½ oz. 40c; 1

Golden Ponderosa

A giant ponderosa of a beautiful golden yellow. Thick, meaty, solid, and of an excellent flavor. Large handsome fruits of a most appetizing appearance. Mild acidity and excellent in every way, for garnishing, salads, etc. A strong vigorous grower of outstanding quality. No. 4199. Pkt. 5c; ½ oz. 30c; 1 oz. 50c.

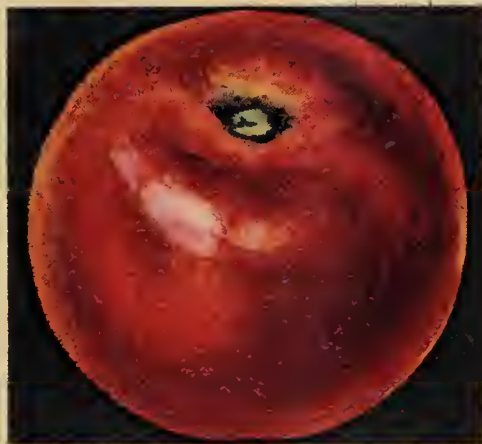

Ponderosa or Beefsteak

A big tomato of outstanding merit both as to quality and size. Very meaty with few seeds. The plants are very blight resistant. A vigorous grower and even in dry season will grow tomatoes of an unusual size. They have less acid than many varieties. They mature in about 110 days. Excellent for the home gardener market. No. 4096. Pkt. 5c; ½ oz. 30c; 1 oz. 55c.

Earliana

A great favorite for many years on account of its rich color and good shape. A strong vigorous grower. Bright scarlet, meaty and delicious. A reliable early variety maturing in 85 days. Vines are compact and carry an enormous crop. A reliable standard variety for many years. No. 4198. Pkt. 5c; ½ oz. 20c; 1 oz. 35c

New Marglobe

The best of all recent introductions. A delicious tomato, globe in shape, rust and wilt resistant. The plants are vigorous and very productive, bearing a wonderful crop of deep scarlet, globe shaped, large fruits. The skin is evenly colored and smooth. A solid, juicy, meaty tomato of a delicious flavor. Excellent for the home garden or market. No. 4093. Pkt. 5c; ½ oz. 25c; 1 oz. 45c.

Giant Climbing Mammoth Prize

We have made this mammoth tomato a specialty for some years. Never fails to give complete satisfaction. Enormous fruits perfect in form, solid, and weighing from one to three pounds each, that possess every good quality you could possibly wish in a tomato. The vines when properly trained attain a height of from 12 to 15 feet bearing enormous quantities of these delicious fruits. A splendid tomato for slicing or salads. By all means include some of these climbing giants in your garden. We offer a selected strain that is extremely prolific and bears continuously until frost. No. 4092. Pkt. 5c; ½ oz. 40c; 1 oz. 75c.

Special Mixture

We make up a special mixture of all the late and early tomatoes. All sizes, shapes and colors. Splendid for the home garden. No. 4200. Pkt. 5c; ½ oz. 25c

Small Fruited Tomatoes Yellow Plum

A delicious very small tomato, about the size and shape of a plum. Very sweet and fleshy. Plants bear immense quantities, fine for preserves, etc. No. 4196. Pkt. 5c; ½ oz. 30c; 1 oz. 50c.

Yellow Pear

Sweet and delicious, excellent for salads or preserves, used for making marmalade, jams, etc. Small yellow pear shaped fruit. Plants are very productive. No. 4197. Pkt. 5c; ½ oz. 30c; 1 oz. 50c.

Watermelons

Are easily grown, prefer a light sandy soil with plenty of sun. Plant in hills 8 ft. apart. Full culture directions are mailed with all seeds. One packet for 8 hills. One ounce 25 hills.

Murvon's Jumbo Watermelon (One Will Fill A Washtub)

The largest and most delicious watermelon grown. Big enuf to fill a small washtub. A splendid medium early. Beautiful deep green skin with dark irregular stripes often weighing 75 lbs. each, and averaging 40 to 45 lbs. It is a splendid shipper the rind being firm and leathery. The flesh is solid, red to the rind and of superb quality.

No. 4138. Pkt. 10c; oz. 15c; ¼ lb. 50c

Climbing Watermelon

Melons about the size of large cocoanuts and of the highest quality. Fruit ripens for a long period, unlike other sorts which ripen their fruits mostly at one time. The vine may be allowed to trail on the ground or may be trained and tied to trellis. An ideal melon for the small garden. These melons start to bear early and continue during the entire season. The flesh is exceptionally sweet. No. 6013. Pkt. 10c; oz. 25c.

Halbert Honey A great favorite, growing as big as Kleckley's Sweet. Average 20 inches in length to 8 inches in diameter. Rind is a glossy dark green. The flesh is a beautiful crimson, the color extending to within a half inch of the rind.

No. 4129. Pkt. 5c; oz. 15c; ¼ lb. 40c.

Rutabagas Winter Turnips

Purple Top Yellow

Seed should be sown in June as they require longer season than turnips. 1 oz. 300 feet.

Purple Top Yellow

A standard variety. Large, smooth globe-shaped roots, the upper portion being a purplish color and the lower portion of the root a deep yellow. Very sweet fine grained, yellow flesh.

No. 4131. Pkt. 5c; oz. 10c; ¼ lb. 25c.

White Fleshed Neckless

The flesh is pure white, firm and sweet. Fine large solid roots, with a white skin, at the top of the root, by the leaves, it is a light green. A fine keeper. Very productive and an excellent table variety. No. 4130. 5c; oz. 10c; ¼ lb. 25c.

Tom Watson The most popular of all watermelons in fact, we have noticed that every year the demand seems greater. It is a long green variety of a most attractive appearance. A large melon and heavy, about 24 inches long and 12 inches in diameter. The flesh is an intense fiery red, and of the most excellent quality. When once eaten it is never forgotten, the flavor being of the finest and sweetest of them all. You will make no mistake with Tom Watson. No. 4135. Pkt. 5c; oz. 10c; ¼ lb. 25c.

Winter Watermelon

A home-grown melon for Thanksgiving dinner, of a most delicious flavor. This is not a "Citron", nor freak, but a very prolific long-keeping true watermelon of medium size, round shape, yellowish rind with flesh bright red, crystalline. Sweet as honey. Fruit taken from the field before frost and stored in a cool place, will keep long into the late fall and early winter and retain their delicious sweetness and flavor.

No. 4061. Pkt. 10c; oz. 15c; ¼ lb. 40c.

Wondermelon Watermelon

"Wondermelon" is one of the favorites. It is one of the finest flavored Melons raised. It is also very productive, grow great quantities of big, dark, glossy green Melons, that resemble the Keckley Sweet but grows much larger and fully as good eating quality. The rind is rather thin but reasonably tough to insure good carry for short hauls, and any market that receives this melon will sell to good advantage. Grows long and thick, flesh deep red and juicy sweet.

No. 4023. Pkt. 10c; oz. 25c.

Mixed Watermelons

An excellent mixture of all the Watermelons listed on this page. Ideal for the home garden. Includes the late and early varieties, the long and the round types. A splendid assortment of Delicious Watermelons.

No. 4134. Pkt. 5c; oz. 10c.

See Watermelon Sugar Boy on Page 40

Table Turnips

Purple-top White Globe

Well known, and a great favorite. Large, rapid growing, globular shaped roots, under portion is white and top bright purple. Pure white flesh fine grained and excellent flavor. Sure cropper and splendid keeper.

No. 4137. Pkt. 5c; oz. 10c; ¼ lb. 25c.

Golden Ball

Also known as Orange July. A delicious globe shaped, bright creamy yellow turnip. Fine grained, tender and sweet. Medium size root, matures in 65 days.

No. 4136. Pkt. 5c; oz. 10c; ¼ lb. 25c.

Early Snowball

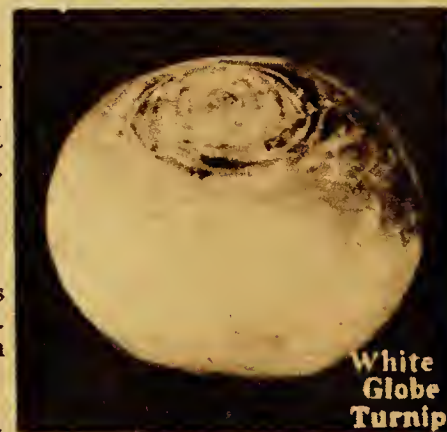

An excellent pure white variety, smooth white skin, and nearly round. Not too large, but just right for the table. Ready for use in 50 days.

No. 4133. Pkt. 5c; oz. 10c; ¼ lb. 25c.

Kohlrabi

Many claim that it is sweeter and of finer flavor than turnips. A fine vegetable that is cooked the same as turnips. Delicious fine grained sweet flesh with a flavor that is not unlike cauliflower. For a continuous supply sow every two or three weeks. Early White Vienna an excellent early variety.

No. 4132. Pkt. 5c; oz. 20; ¼ lb. 65.

White Globe Turnip

Yokohoma Plant Food

This photo shows exactly the change Yokohoma makes in potted plants. We experimented ourselves and the results were wonderful. Two plants of the same size and strength were used, and given the same care. One was treated with Yokohoma, and within a few weeks almost doubled in size, as shown in illustration, and was a perfect specimen of healthy plant life. It will make your flower garden a place of real beauty, with large fragrant flowers in abundance, keeping them in bloom long into the fall. It will make your vegetable garden productive, your plants and vines bending with luscious fruits and crisp vegetables which will mature early. It will keep your house plants fresh and beautiful and will make them bloom continually throughout the winter months. Order a box today, then watch the wonderful results. Full directions with each box. Clean and easily applied. Keeps the soil rich but odorless, acts as disinfectant and kills cut worms. It is highly concentrated. It makes no difference how healthy or delicate your plants may be, Yokohoma will bring out new foliage and flowers and cause a marvelous transformation. Sample trial size, 15c; house plant size 30c; garden size, \$1.15.

Strawberries From Seed

Everbearing Strawberries grown from seed. An excellent strawberry, slightly smaller than the standard variety, but of the most delicious flavor. Seed sown in pots or flats in winter will produce fruits the following fall. Seed sown in the spring will produce plants yielding delicious fruits the following season, over an inch in length. Start a strawberry patch, and you will enjoy these tasty berries all season, and as late as October or early November. No. 4159. Pkt. 15c; 2 Pkts. 25c.

Raise Some Peanuts

Can be easily grown in every state in the Union. Just think of growing all the peanuts you want to eat and have some to sell or give away. Directions for planting: Shell nuts carefully so as not to break the inside skin. Plant as soon as ground is warm, three feet apart, three or four in a hill. cover two inches deep. Soil should be deep and mellow. Produces fifty to seventy-five bushels to the acre.

No. 4160. Pkt. 10c.

Chinese Cinnamon Vines

Cinnamon Vines — from the Oriental land are the most charming of climbers, and will quickly surround your arbor, windows and veranda with a wonderful profusion of lovely vines covered with handsome, glossy heart-shaped leaves and sweet-scented flowers. Once planted, will grow a lifetime. Perfectly hardy, thrives everywhere, in sun or shade, wet or dry. Never troubled with insects or blight. A splendid climber that will grow 30 ft. in a single season. For windows plant 2 on each side. For porches plant one foot apart. Support the vines with twine. Choice roots.

10c each; 3 for 25; 7 for 50c.

Insecticides and Fertilizer
